Thank you for participating in our study. My job is to take a lot of notes and to figure out what we can do to make these questions easier to understand. If a survey question doesn't make sense or you don't understand a certain word used, please tell me that. If you need me to repeat any question, just let me know. After each survey question, I will ask you follow up questions about how you came up with your answer and how easy the question was to understand. When we're done, you'll receive \$40 in cash as reimbursement for your time and travel.

First I'll ask a few demographic questions to help us analyze the results of the study.

These follow up questions will help me understand how you came up with your answer and to evaluate how easy or difficult the survey questions are.

Do you have any questions before we begin?
