

Step-by-step instructions for completing the
IMLS State Program
Financial Status Report (FSR) for 2010

In completing the online form, you will only need to make entries in the cells that are shaded in **Light Green**; all the other cells are locked. The cells shaded in **Yellow** have formulas built-in and will make the necessary calculations for you. The cells shaded in **Gray** do not need your input. You may make your entries in the **Light Green** cells in any order you like; the formulas will take care of the rest.

If you have trouble using the form, or if it does not seem to meet your unique needs, you may ask for a similar form that does not have any formulas; this is a form that can be completed on a computer and printed out for the Authorized Official's signature, or that can be printed out so that all of the data can be completed by some other means.
