- B2. Procedures for the Collection of Information
- B3. Methods to Maximize Response Rates and Deal with Nonresponse
- B4. Tests of Procedures or Methods to be Undertaken
- B5. Individuals Consulted on Statistical Aspects and Individuals Collecting and/or References

B. Collections of Information Employing Statistical Methods

Statistical methods are not being used for the collection of information for the WTC Health Program application process. The James Zadroga 9/11 Health and Compensation Act of 2012 (the Act) requires individuals to meet certain criteria to be eligible for health benefits under the Act. The enrollment form collects data on the individual and the required information to be eligible for the Program. Statistical data cannot be used for these purposes.

1. Respondent Universe and Sampling Methods

Sampling will not be used to collect eligibility data in the Program. Information in the application is based on information unique to each individual seeking membership in the Program.

2. Procedures for the Collection of Information

Statistical methods will not be used to collect eligibility data in the Program. Information in the application is based on information unique to each individual seeking membership in the Program.

3. Methods to Maximize Response Rates and Deal with No response

Statistical methods will not be used to collect eligibility data in the Program. Information in the application is based on information unique to each individual seeking membership in the Program.

4. Tests of Procedures or Methods to be Undertaken

Statistical methods will not be used to collect eligibility data in the Program. Information in the application is based on information unique to each individual seeking membership in the Program.

5. Individuals Consulted on Statistical Aspects and Individuals Collecting and/or Analyzing Data

Statistical methods will not be used to collect eligibility data in the Program. Information in the application is based on information unique to each individual seeking membership in the Program.
