

NEORHYMIS v2.1 - BASIC CENTER ENTRANCE REPORT

Expiration date 09/30/2013

OMB Control No 0970-0123

This instrument collects information regarding young people served by the Family and Youth Services Bureau (FYSB)-funded Basic Center Programs. (For youth to whom Basic Center Program staff provide services lasting fewer than 6 hours and/or do not stay overnight, please complete the Brief Service Contact Record.) Youth who are receiving FYSB funded services but are not staying at the Basic Center, may be fully recorded, and should be recorded in NEORHYMIS if the contact is more than casual or transitory. Street outreach services or “brief services” contacts should be entered in their respective NEORHYMIS reports.

Complete and accurate reporting of information regarding youth served by Basic Center Program grantees is important because it helps to inform the U.S. Congress and funding sources about the youth whom Basic Center Programs serve and about the services Basic Center Programs provide.

For each youth who enters the Basic Center Program, please provide answers to all of the questions on this form. To answer a question, click on the appropriate response from the drop-down list box, and/or select the appropriate response. Common elements between entrance and exit reports will be automatically generated. Services, such as prevention efforts, for youth provided prior to participation or elsewhere than the BCP shelter can be reported in the BCP Exit Report.

NOTE: Entry of non-FYSB funded youth in NEORHYMIS is optional. Such non-FYSB records are for your own use or convenience. NEORHYMIS software segregates the records automatically and they are not sent to the national FYSB database during transmission. A referral check-off is now available in the Brief Services Record to provide a rough headcount of current "system" youth (who are not included in the FYSB treatment population) whom you refer to or treat with system-funded services after they present themselves at the FYSB shelter.

Settings for service delivery: Identify the setting and nature of services delivered as explained below (choose the type that applies).

INITIAL Setting for Service Delivery (select **one** of the following codes):

1	Services to prevent shelter entry	<i>Preventive services were provided at home or another location to serve the youth's needs and with the goal of keeping the youth in their home. These may include: in-home services, services provided at a school, faith-based organization, community center, on the BCP premises while the youth continues to reside at home, or similar situations. These services could be provided by a variety of sources. The BCP exit report will collect information on specific services rendered.</i>
2	Direct BCP shelter services	<i>Direct BCP shelter services are those provided when the youth directly enters the BCP shelter without receiving prior preventive services.</i>

Youth who are receiving a structured course of preventive services outside the shelter should be recorded in NEORHYMIS Entrance and Exit Reports as well as youth who directly enter the BCP. The opportunity to describe the course and types of preventive services is found under Services, item 20 in the BCP exit report. Such services recorded in NEORHYMIS BCP reports should be more structured than transient or casual contacts (e.g., hotline/phone or brief, drop-in counseling) recorded in the Brief Service Contact Report.

Enter the date the youth first received preventive services or directly entered the BCP shelter without prior preventive services.

NOTE: The race and ethnicity classifications below are defined by revised OMB Statistical Policy Directive No. 15. The classifications should not be interpreted as being scientific or anthropological in nature, nor should they be viewed as determinants of eligibility for participation in any Federal program. They have been developed in response to needs expressed by both the executive branch and the U.S. Congress to provide for the collection and use of compatible, nonduplicated, exchangeable racial and ethnic data by Federal agencies.

1. Race (select one or more codes)

1. _____ **American Indian or Alaska Native:** *A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment.*

(If the youth did not spend more than 6 months at one residence during the 12 months prior to entrance, enter the code corresponding to the residence in which he or she spent the most time during that period.)

Some of the living situation categories have further type sub-classifications. If this is the case for the applicable living situation at entry for the youth, then both a code for the living situation and a code for living situation type must be selected.
