1 Introduction

This document represents the user guide for the Office of Pollution Prevention and Toxics (OPPT) Section 4 application submission process. This document is the user guide for the Primary Authorized Official (AO) user of the Section 4 tool.

The Primary AO is the person legally responsible for the submission of Section 4 Test Rules, ECA, MOU, and 40 CFR 766 for the reporting company. The AO, typically, is a senior official for the reporting company and may be the supervisor of the person (or persons) completing the form.

As a Primary AO, you can create a new form. You can also assign Supports to edit and complete forms on your behalf. You are responsible for submitting all required information and are legally responsible for the information submitted to EPA within each Section 4 Test Rules, ECA, MOU, and 40 CFR 766 submission.

General information on Section 4 is available at <http://www.epa.gov/oppt/chemtest/ereporting/index.html>. Information on CDX registration, including user roles that apply to completing a Section 4 is available at <http://cdx.epa.gov/About/UserGuide>

Toxic Substances Control Act (TSCA) regulations require industry to provide the Environmental Protection Agency (EPA) with documentation regarding chemical production, manufacture, distribution, use, disposal, import, and export. As a result, the implementation of TSCA has generated a large volume of documents submitted to the Agency by the regulated community.

The Section 4 application is the electronic, web-based tool provided by the Environmental Protection Agency (EPA) for the submission of Section 4 data. As a Primary AO, you can create or modify a Section 4 submission as well as submit it to EPA via the Central Data Exchange (CDX). You can also create Section 4 submission amendments and download the Copy of Record (CoR).

For questions concerning the Toxic Substances Control Act (TSCA) Section 4 software requirements, please contact the CDX Help Desk at helpdesk@epacdx.net or call 1-888-890-1995 between the hours of 8am – 6pm Eastern Standard Time (EST). For TSCA Section 4 requirements, please contact the TSCA Hotline at TSCA-Hotline@epamail.epa.gov or call 202-554-1404

Please note: Any person who submits a positive test result for a specific chemical substance listed under section 766.25 must submit to EPA, no later than 90 days after the date of submission, a completed 7710-51 form. The form can be downloaded from the following link: <http://www.epa.gov/oppt/chemtest/pubs/7710-51.pdf>.

1.1 Labeling Confidential Information

This user guide presents instructions and screenshots for the ‘Section 4 Test Rules, ECA, MOU, and 40 CFR 766 submission’ electronic application as if you were logged in as the Primary AO. As the Primary AO you are able to create, modify, delete, and submit a Section 4 submission. The user may claim certain information as Confidential Business Information (CBI). If the data is claimed as CBI, it will be treated in accordance with Agency confidentiality regulations at 40 CFR part 2, subpart B.

This TSCA Section 4 Test Rules, ECA, MOU, and 40 CFR 766 submission electronic application is optional for the production and submission of these filings. The paper option for filing will continue to be allowed.

Potential users may find that the use of this application saves time, burden and, because it is in an electronic format, provides easy access to reporting forms. Potential users are reminded to carefully read and follow application instructions. Persons who wish to use this application must address all provisions in the application, including those relating to indexing information (i.e., company name, address, chemical name etc.) and those related to CBI submissions, including the requirement for the submission of sanitized or redacted filings.

Please note that certain CBI claims will not be accepted if you choose to use this electronic application for TSCA Section 4 Test Rules, ECA, MOU, and 40 CFR 766 submission. For example, chemical name and/or chemical identity, if the chemical is listed on the public portion of the TSCA Inventory, may not be claimed as CBI in a submission using this application.

If the user believes that these or other data elements should be treated as CBI, then the user may use the paper option to file the Section 4 submission form and assert CBI claims.

If the user claims an uploaded document as CBI, a sanitized document must be provided.

The following fields can be claimed as CBI within the ‘Section 4 Test Rules, ECA, MOU, and 40 CFR 766’ submission application:

TSCA Section 4

OK

The software includes embedded help files and a downloadable user manual to guide you through the Section 4 submission process.

The Toxic Substances Control Act gives EPA authority to issue data development regulations that require manufacturers and processors of existing chemicals to test their chemicals for health and environmental effects. EPA has the broad authority under the law to issue:

Information collection regulations that require the submission of health and safety studies which are known or available to those who manufacture, process, or distribute in commerce specified chemicals; and regulations designed to gather information from manufacturers and processor about production/import volumes, chemical uses and methods of disposal, and the extent to which people and the environment are exposed.

TSCA also requires EPA to develop regulations that establish import/export requirements for chemicals which are subject to certain requirements under TSCA.

Paperwork Reduction Act Notice

The information collection requirements contained in this final rule have been submitted for OMB approval under PRA, 44 U.S.C. 3501 et seq. The ICR document prepared by EPA, identified under EPA ICR No. 2412.01 and OMB control number 2070-0004, is available in the docket for the final rule. The ICR addresses the incremental changes to the currently approved ICR documents that cover the existing reporting and record keeping programs that are approved under OMB control numbers 2070-0004, 2070-0033, and 2070-0054. An agency may not conduct or sponsor, and a person is not required to, respond to a collection of information unless it displays a currently valid OMB control number. The amended information collection activities contained in this final rule are designed to assist the Agency in meeting its responsibility under TSCA to receive, process, and review reports, data, and other information. As such, responses to the collection of information covered by this ICR would still be mandatory, but with the final rule, respondents would be required to use the CISS reporting tool.

Authority

The Government Paperwork Elimination Act (GPEA) (44 U.S.C. 3504) provides that, when practicable, Federal organizations use electronic forms, electronic filings, and electronic signatures to conduct official business with the public. EPA's Cross-Media Electronic Reporting Regulation (CROMERR) (40 CFR part 3) (Ref. 2), provides that any requirement in title 40 of the CFR to submit a report directly to EPA can be satisfied with an electronic submission that meets certain conditions once the Agency published a document in the **Federal Register** announcing that EPA is prepared to receive certain documents in electronic form. For more information about CROMERR, go to <http://www.epa.gov/cromerr>.

Navigation: Select 'TSCA Section 4' from the drop-down menu and click the 'OK' button to navigate to the Section 4 'Home' screen.

To grant a Support access to a Section 4 submission, you must create a new submission and assign a passphrase to that submission. You can also assign different Supports to fill out the Section 4 submission for each submission type.

Section 4 Submission: A submission type will not be available in this menu until it has been created. Select a submission type from the drop-down menu to begin assigning Supports. Once a submission type has been selected, the ‘Assign Users’ group box will update to display only the Supports who have identified you as their Primary AO during CDX registration.

Assign Users: This box shows all the Supports you can assign to complete a Section 4 submission for the submission type selected. To move Supports from the ‘Unassigned’ group

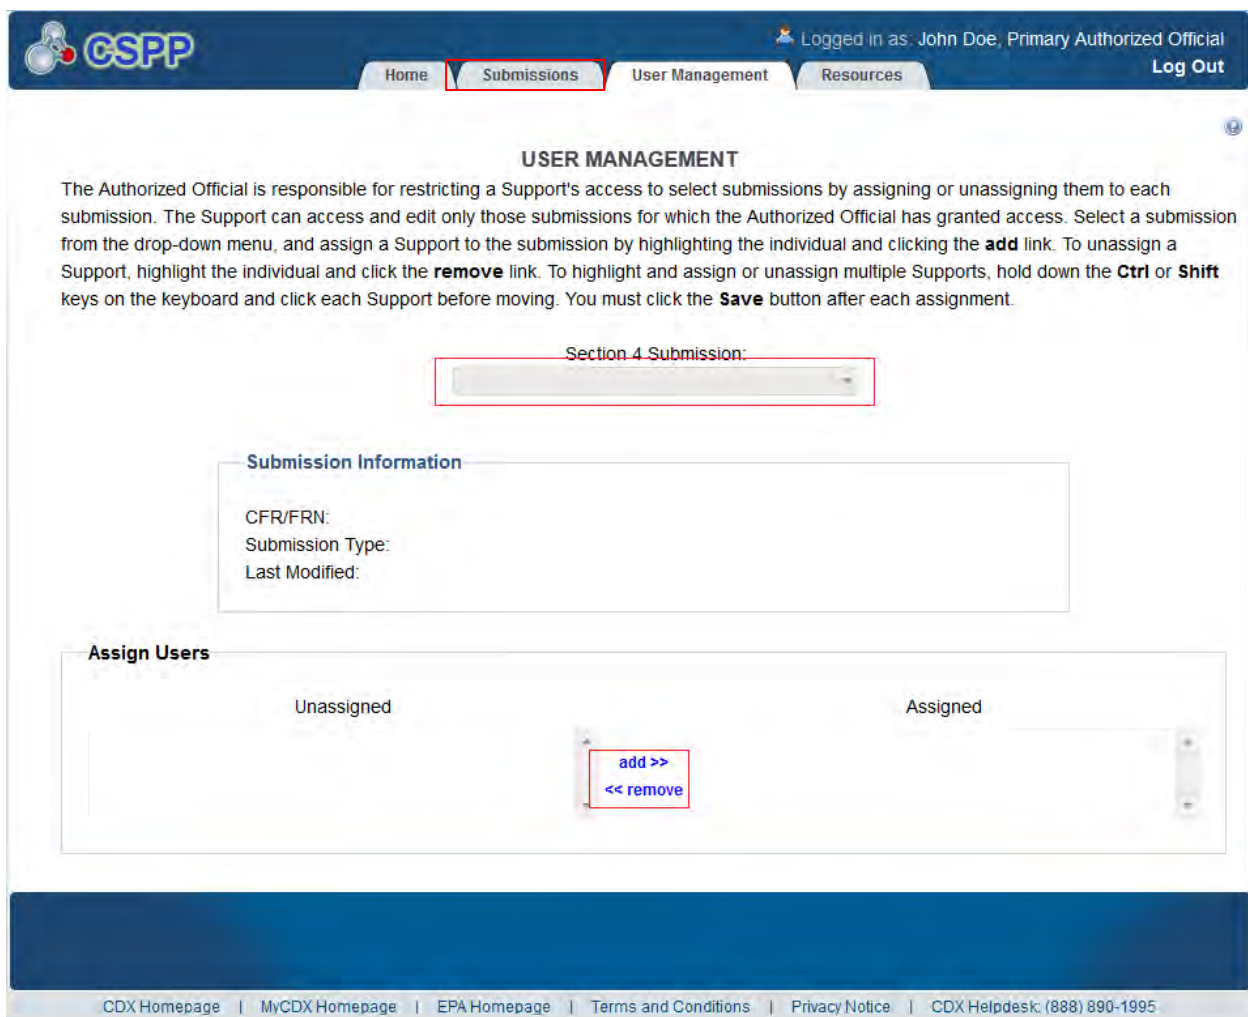

box to the ‘Assigned’ group box, highlight the individual or multiple Supports and click the ‘add >>’ button.

- **Unassigned:** This box contains the registered Supports associated to the Authorized Official who can be assigned to access and edit the selected submission. To highlight multiple Supports hold down the <Ctrl> key on your keyboard while clicking each Support. To highlight multiple consecutive Supports, hold down the <Shift> key on your keyboard while clicking the first and last Support.
- **Assigned:** This box contains the registered Supports who have been given permission, by the Authorized Official, to access and edit the selected submission. To move Supports from the ‘Assigned’ group box to the ‘Unassigned’ group box highlight individual or multiple Supports and click the ‘<< remove’ button. To highlight multiple Supports hold down the <Ctrl> key on your keyboard and click each Support. To highlight multiple consecutive Supports hold down the <Shift> key on your keyboard and click the first and last Support.

When you have finished assigning Supports, click the ‘Save’ button to save the assignments.

Exhibit 3-3 shows a screen capture of the ‘User Management’ screen:

Exhibit 3-3: User Management Screen

Navigation: Click the ‘Submissions’ tab located within the application header to navigate to the ‘Section 4 Test Rules, ECAs, MOUs, and 40 CFR 766’ submissions screen and start or access a submission.

3.4 Create New Submission

As a Primary AO, you can start a new submission and assign your Supports to complete the submission.

3.4.1 Section 4 Test Rules, ECAs, MOUs, and 40 CFR 766 Submissions Screen

You can access the ‘Section 4 Test Rules, ECAs, MOUs, and 40 CFR 766’ submissions screen by clicking the ‘Submissions’ link from the Section 4 ‘Home’ screen, or by clicking the ‘Submissions’ tab located within the application header.

Only one Section 4 submission is created per submission type. Each column within the table of the ‘Section 4 Test Rules, ECAs, MOUs, and 40 CFR 766’ submissions screen can be sorted by clicking the column headers.

Start a New Submission: To create a new Section 4 submission, select the submission type from the ‘Submission Type’ drop-down menu and click the ‘Start New Submission’ button. You will be required to create a passphrase that will be associated with that particular submission. Make sure to create a passphrase that you will remember, as it cannot be retrieved or reset. Refer to **Section 3.4.2** for further instructions on creating a new passphrase.

Edit a Submission: To modify an existing Section 4 submission, click the submission alias link for a submission that has a status of ‘In Progress.’ You will be required to enter the passphrase associated with that particular submission to access and continue editing the submission. Refer to **Section 3.4.3** for further instructions on viewing and modifying a submission that is ‘In Progress.’

Submitted Submission: To edit a submission that has previously been submitted (i.e., to create an amendment), you must first unlock the particular submission by clicking the ‘Lock’ icon () under the ‘Action’ column. You will be required to enter the passphrase associated with that particular submission to gain access to amend the submission. All changes will be submitted as an amendment. Refer to **Section 11** for further instructions on creating an amendment.

The ‘Section 4 Test Rules, ECAs, MOUs, and 40 CFR 766’ submission screen displays the following columns:

- **Submission Alias:** Displays the submission alias that is generated from the ‘Submission Information Type’ screen. The ‘Submission Alias’ column will display as a time stamp unless a unique alias was provided on the ‘Submission Information Type’ screen. The purpose of the submissions alias is to help identify each Section 4 submission when there is more than one.
- **CFR/FRN:** Displays the Code of Federal Regulation/Federal Register Notice (CFR/FRN) that was selected on the ‘Submission Information Type’ screen.
- **Status:** Displays the status of the Section 4 submission. The column will display values as either ‘In Progress’ or ‘Submitted.’
- **Modify Date:** Displays the date the submission was last modified.

- **Submission Date:** Displays the date when you submitted the form to CDX. This date is populated only after you submit.
- **Copy of Record:** Click the ‘Copy of Record’ icon to continue the download copy of record process. The ‘Copy of Record’ icon displays only after you submit to EPA via CDX. The ‘Copy of Record’ icon is confirmation that your submission has been successfully received by EPA. Note that the ‘Copy of Record’ icon may take 15-20 minutes to display on the ‘Section 4 Test Rules, ECAs, MOUs, and 40 CFR 766’ submissions screen. Refer to **Section 10** for further instructions on downloading the copy of record.

3.4.2 Create Passphrase Screen

To start a new Section 4 submission, select a submission type from the ‘Submission Type’ drop-down menu and click the ‘Start New Submission’ button on the ‘Section 4 Test Rules, ECAs, MOUs, and 40 CFR 766’ submissions screen. The ‘Create Passphrase’ screen allows you to create a passphrase and associate that passphrase with the submission.

The application uses the passphrase as an encryption key to protect the contents of the submission. You are responsible for remembering the passphrase and distributing it to the appropriate individuals.

New Passphrase: To associate a passphrase with a submission, enter a passphrase that is at least 8 characters in length. To protect your account, your passphrase should contain a combination of letters and numbers. The passphrase you create may include spaces, but should **not** contain special characters (for example, +, and *). You can associate the same passphrase with multiple submissions.

You will be responsible for remembering the passphrase and distributing it to only authorized Supports for the submission. If you forget the passphrase, you will not be able to access the Section 4 submission to print, submit, or make changes. If you lose or forget the passphrase, you must create a new submission and passphrase. For security reasons, the system administrator does not have access to the passphrase and will not be able to retrieve it or reset it to a new one.

Exhibit 3-5 shows a screen capture of the ‘Create Passphrase’ screen:

Exhibit 3-5: Create Passphrase Screen

The screenshot shows the 'CREATE PASSPHRASE' screen. At the top left is the GSPPP logo. At the top right, it says 'Logged in as: John Doe, Primary Authorized Official' with a 'Log Out' link. The main heading is 'CREATE PASSPHRASE'. Below this, there is a paragraph of instructions: 'Please create a passphrase that is at least 8 characters in length. To better protect your form, your passphrase should contain a combination of letters numbers. Your passphrase may include spaces, but should not contain special characters (for example, + and *).' This is followed by another paragraph: 'As an Authorized Official, you are responsible for remembering your passphrase and distributing it to only authorized individuals. Your passphrase will be used as an encryption key to protect the contents of your data. As an Authorized Official, you are responsible for remembering your passphrase and distributing it to only authorized Supports.' A bolded note follows: 'Note: If you lose or forget your passphrase, you will not be able to access your Section 4 Submission to print, submit, or make changes. You will need to complete a new Section 4 Submission and create a new passphrase for the submission. For security reasons, the system administrator will not have access to your passphrase and will not be able to retrieve it or reset it.' Below the text are two input fields: 'New Passphrase:' and 'Confirm New Passphrase:'. The 'Next' button is highlighted with a red box. At the bottom, there is a navigation bar with links: 'CDX Homepage | MyCDX Homepage | EPA Homepage | Terms and Conditions | Privacy Notice | CDX Helpdesk: (888) 890-1995'.

- **Federal Register Notice:** Allows the user to select a FRN. The selected FRN will dictate which chemicals the user will be able to report on. If you change the FRN at any point while completing the submission, a warning message will display indicating that all data associated with the current FRN will be deleted. This field is required.
- **Submission Alias:** This field is auto-populated with a date and time stamp and is displayed on the 'Section 4 Test Rules, ECAs, MOUs, and 40 CFR 766' submissions screen within the 'Submission Alias' column. This field is required.
- **Study Plan:** The 'Study Plan' checkbox will only be available after the Letter of Intent has been submitted. Checking the 'Study Plan' checkbox identifies that you are fulfilling the requirements to submit a study plan to EPA.
