We have taken the liberty of providing an internet version with the hope that this might be more convenient and easier for you to answer for this business. If you prefer to answer over the Internet, type the web address below into your Internet browser and then enter your access code.

Your responses will be kept strictly confidential and your name will not be connected to your answers in any way. The identification number on the back of the survey will only be used to remove your name from the mailing list when your questionnaire is returned.

If you have any questions about this effort, or prefer to answer by telephone, please feel free to call me at 1-800-833-0867 and mention the National Survey of Business Competitiveness.

National Survey of Business Competitiveness

Your input is critical to understanding the needs of businesses to be competitive and successful. Our past research shows that businesses we haven't heard from are often quite different and have unique challenges compared to those we hear from early in surveys.

This information is collected on behalf of the Economic Research Service of the United States Department of Agriculture (USDA). The purpose of the study is to learn what successes and difficulties companies throughout the United States have introducing new products or services, and finding skilled labor, financing, or other inputs needed to remain competitive in national and global markets.

USDA will use these results to enhance its programs aimed at making U.S. businesses more resilient. Reports from this study will be shared to Congress and other Federal and State agencies that assist businesses.

Answering is easy and should take 6 minutes or less. If your operation is no longer in business, the questions are few and you will be able to indicate this quickly. We need your response even if you are no longer involved in business activity as this is important information to the study. Once we hear from you we will not contact you again.

If you have any questions about this effort, or would prefer to participate by telephone, please feel free to contact me by phone at 1-800-833-0867 or by email at sesrcweb4@wsu.edu.

Thank you in advance for your help. We appreciate it very much. Sincerely,

Danna L. Moore Ph.D.
