XX/XX/2014

Dear [FIRST NAME] [LAST NAME]:

2M Research Services and its partner, Mathematica Policy Research, are conducting a national survey for the U.S. Department of Agriculture, Food and Nutrition Service (FNS), as part of a study called the Special Nutrition Program Operations Study (SN-OPS). This is the final year of the three-year study. The SN-OPS is being conducted to understand and address the current policy issues related to Special Nutrition Program (SNP) operations.

The goal of this study is to improve the implementation of the Child Nutrition Program by examining:

- Data on the Child Nutrition (CN) program characteristics to help FNS respond to questions about the SNPs in schools;
- Data related to program administration for designing and revising program regulations, managing resources, and reporting requirements; and
- Data related to program operations to help FNS develop and provide training and technical assistance for SFAs and State Agencies responsible for administering the CN program.

The survey is designed to be completed by the Child Nutrition Director or designated members of your staff in about 2 hours. This is a web survey that you will complete online. A hardcopy of the survey is included with this letter for planning purposes. We encourage you to circulate the survey among appropriate staff, if necessary, to obtain all responses. Participation is voluntary and the information you provide will be kept private to the extent allowed by law.
