Company Name 2				
Address				
City State ZIP Code				
Item C OPERATING STATUS				
Which of the following best describes this establishment's operating status during the week of				
?				
☐ In operation				
Temporarily or seasonally inactive Example: (04-09-1978)				
☐ Ceased operation - Enter date ceased operation ————————————————————————————————————				
15-1015 - 25-04/2015/2010-25-25-2010/naman1490/nitin				
Item D TOTAL NUMBER OF OUTBOUND SHIPMENTS				
For this survey it is important to obtain information about a sample of the outbound chiaments made from this				
For this survey, it is important to obtain information about a sample of the outbound shipments made from this establishment.				
An outbound shipment in this survey is defined as a movement of commodities from your establishment to another single location.				
 Remember to include only outbound shipments from your shipping address (address printed on the label). 				
Also include customer pick-ups, parcels, and all other outbound shipments.				
1. What was the total number of all outbound shipments for this establishment the week of				
Total number of outbound shipments				
?				
F.F. and a constable				
Estimates are acceptable.				
For further information, refer to the Instruction Guide, page 2.				
10000000000000000000000000000000000000				
2. Did you enter 40 or fewer shipments above?				
Yes (Skip Item E and report all outbound shipments in Item F, pages 4-7.)				
- 166 (ONP Item E and report an outboard simplified in Item F, pages 4-7.)				
☐ No (Proceed to Item E, on page 3.)				
Form CFS-1000				

m CFS-1000 (2017)

Item E SAMPLING INSTRUCTIONS

In order to avoid asking you for information regarding all of your shipments, we will only ask about a sample of them. This section will help you **identify your sample of shipments** that should be reported in Item F.

Using the table below, mark the row that includes the total number of outbound shipments reported in Item D, and the corresponding "report every" number.

Number of outbound shipments reported in Line 1	Report every	Mark (X) one
41-80	Report every 2nd outbound shipment	
81-100	Report every 3rd outbound shipment	
101-200	Report every 5th outbound shipment	
201-400	Report every 10th outbound shipment	
401-800	Report every 20th outbound shipment	
801-1600	Report every 40th outbound shipment	
1601-3200	Report every 80th outbound shipment	
3201-6400	Report every 160th outbound shipment	
6401-12800	Report every 320th outbound shipment	
More than 12800	Call Census at 1-800-772-7851, option *3*, or go to econhelp.census.gov/cfs	

Example:

If an establishment reported 253 shipments in Item D, it would correspond to the range of 201-400 and every 10th outbound shipment record would be selected.

This means:

- The establishment would count 10 shipment records from the first shipment record of the week that was names in Item D, select that record, and report it in Item F.
- The establishment would then count another 10 shipment records again from the shipment selected in step 1 and record that shipment in item F.
- The establishment would repeat this process until it had gone though the full set of shipment records for the week named in Item D.

For further information, refer to the Instruction Guide, page 3, or visit the business help site at econhelp.census.gov/cfs/surveytools to view an instructional video on how to sample.
