Protocol for User ID testing.

1. **Pretend that this piece of paper came from the Census Bureau and it had this User ID** (point to the user ID). **When you are ready, enter that ID on this laptop/phone screen and then select Login. Let me know when you have selected Login.** (When done) **Thanks so much. Now please rate your experience entering that User ID.**
2. Place ID paper and Questionnaire together, staple it, write smartphone or laptop on it and then place in a pile. Do not reuse.
