

Attachment M, ACS Respondent Burden Testing Protocol, Group 3, Version 2, Paper

Introduction

Hello, my name is _____ and I work here at Westat. Thank you for taking the time to participate in this research study.

Westat is working to develop new questions for the American Community Survey, which is sponsored by the U.S. Census Bureau. Before surveys are conducted, it's important to try out questions with the help of people such as yourself. The survey asks questions about you and your household.

It is important that the questions make sense, are easy to answer, and that everyone understands the questions the same way. If you agree to take part in this study, I will hand you a questionnaire to answer. After you complete it, I will ask you some questions about the answers you gave. There are no right or wrong answers. Our purpose is not to compile information about you. Instead, your interview along with those of others will show us how to improve these questions for a later survey.

Informed Consent

Before we get started, there are a few things I should mention. This is a research project, and your participation is voluntary. If you prefer not to answer any questions just say so, and you can go on to the next one. It's also okay if you change your mind after starting and would rather not participate.

All your answers, everything you say, will be kept confidential. We will not use your name in any reports. The interview will take about 40 minutes and you will receive \$40. We will also need to audio record our conversation. This helps me so I can listen to what you are saying and won't have to take a lot of detailed notes while you are talking; it will also help when we write up a summary of this interview. Only project staff will have access to the recording and other project materials, and those materials will be stored according to Title 13 requirements for protecting the identity of individual respondents. {Finally, some of the researchers developing the questions are here today observing our interview to learn if there are things that might need to be changed.}

HAND CONSENT FORMS TO RESPONDENT, This form contains all of the things I just told you about your rights in this interview. Please read it over and sign both copies if you are willing to take part in the study.

HAVE R SIGN TWO CONSENT FORMS, KEEP ONE AND GIVE ONE TO RESPONDENT.

TURN ON RECORDER. The date and time is _____. Now that the recorder is running, let me ask again, is it okay with you if we record this interview?

Protocol

In a moment, I am going to hand you the questionnaire. I'd like you to fill it out as if you received it in the mail at home. If you had received this form at home, your address would be located on the front of the questionnaire in the white area. Sometimes the questionnaire says "this house" or "here." At those times, please continue to imagine you're filling the survey out at home.

After you have finished answering the questions, we will talk about some of the answers you gave. Before we begin, do you have any questions about the process?

HAND QUESTIONNAIRE TO RESPONDENT: Please go ahead and start filling out the questionnaire. You can ignore any series of questions that have an "X" through them.
