Subject: Re: you cant have "healthy eating in us when usda gives us poison to eat

public comment on federal register

what a fraud this proposal is. you cant eat healthfully in america anymore. the usda is throwing crap food at the american public. the ge hiding crap that nobody wants to label because nobody would buy it. the toxicity allowed in growing plants per monsanto and syngenta. the animals raised in brutality filled with antibiotics because their lives are abolutely horrific, they get crap to eat, they cant move, they have their bodies ripped apart, the food presented to the american people is pure crap and nobody can stay healthy on it anymore. it brings on all kinds of health issues like chronic colitis from germs in the damn polluted meat. this is a real fraud and waste of money, and gouging taxpayers to fund this is depraved. this agency needs to get after the usda and what it is allowing on farms that is poisosning us. instead this agency does these stupid surveys, which are a total waste of american tax dollars. rich people can buy slightly healthier food, but you can buy cheap aspartame filled soda cheap, safe fruit juice costs alot of money. the average american who is poor is being poisoned by the policies of this wimp agency that can do somethign about this and chooses to lie low and do absolutely nothign to protect american health. this comment is for th epublic record. please acknowledge receipt of this comment. jean public
