Health and Genetics from YOUR Point of View

What is YOUR point of view about how genetics and behavior might affect your health and other people's health? How do YOU think about health risks? What is YOUR opinion about genetic tests? We would really like to know. Click the link and help us advance the science of health risk!

We estimate that this survey will take 25 minutes, including the time for reviewing instructions, consenting, and completing the survey.

These surveys are being conducted by researchers at the National Human Genome Research Institute of the National Institutes of Health.

The surveys are being conducted to help researchers understand how people think and feel about issues related to genetics and health. You may complete as many or as few of the surveys as you wish.

Your response to the surveys is completely voluntary. You may end your participation at any time. Any reports or publications based on this research will use only group data and will not identify you individually. We will not store any personally identifying information within the survey. Your responses will remain secure to the extent permitted by law. The privacy and confidentiality of all collected information will be maintained at all times during the study process.

By clicking on the Accept button below you are indicating that you consent to participate in this research.

In these questions, we are interested in your thoughts about various factors that influence the risk of having health problems. The first set of questions asks about YOUR everyday behaviors, and the questions on the next page ask about OTHER PEOPLE'S everyday behaviors

How much do you think YOUR OWN health habits such as diet and exercise determine whether or not YOU will develop each of the following conditions?

	Not at all	A little	Some	A lot	Completely
Diabetes/High blood sugar	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Obesity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Heart disease	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
High blood pressure	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lung cancer	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Colorectal cancer	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Skin cancer	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

How much do you think YOUR OWN GENETIC MAKEUP, that is, characteristics passed from one generation to the next in YOUR family, determine whether or not YOU will develop each of the following conditions?

	Not at all	A little	Some	A lot	Completely
Diabetes/High blood sugar	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Obesity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
