I am going to ask some questions about the people who think of this address as their main home.

This includes people who usually stay at this address but are temporarily away on business, on vacation, in a hospital, or living at school in a dorm, fraternity or sorority.

It does not include college students who live in off-campus housing.

Including yourself, how many people live at this address and have no other place they usually live?

{PROGRAM NOTE: IF RE-ROUTED FROM HM0051, DISPLAY THIS INTERVIEWER INSTRUCTION}

RESPONDENT INDICATED THAT THE ORIGINAL NUMBER OF PEOPLE LIVING AT THIS ADDRESS WAS WRONG AND NEEDS TO BE CORRECTED: You said someone else lives here, so I need to confirm the number of people who think of this address as their main home. You told me that {LIST OF ALL HH MEMBERS} live here, for a total of {NUMBER OF PEOPLE} people. How many people live here?

|__|__|__| NUMBER OF PEOPLE

ASK: All households.

PROGRAM: Start enumeration timing here. The following variables – name, respondent flag, gender, age, age range, ethnicity, race, military status, twin flag, and the misreported flag (HM0002 – HM0012) – should appear as a grid. All enumeration information is entered in this grid.

PROGRAM: LIST OF ALL HH MEMBERS – display in Title case. If two names, connect with "and"; if more than two names, put ", and" before the last HH member name. NUMBER OF PEOPLE – fill with total number of people reported in household.
