Estimating Your Earnings for 2013 and 2014

We have put together a list of questions that will help you update your earnings estimate. Please answer them carefully. Before you answer our questions, we want to talk briefly about how to estimate your earnings.

How to Estimate Your Earnings

It may not be easy for you to figure ahead of time how much you will make in 2013 and 2014. But if you keep these pointers in mind, you should have no problem.

- If you are paid wages, base your estimate on what you expect to earn before taxes or other deductions for the whole year. Be sure to include bonuses, vacation pay, sick pay, tips of \$20 or more a month, and any contribution that you make from your salary to a tax deferred savings plan.
- Drop from your estimate any money you will get from your employer this year for work you did last year or before. Also, do not include:
 - Social Security, railroad or civil service retirement, veterans, black lung or public assistance benefits;
 - pensions and other retirement payments which are not reported on your W-2 form;
 - investment income;
 - interest from savings accounts;
 - life insurance annuities and dividends;
 - gifts or inheritances;
 - gain (or loss) from the sale of capital assets;
 - rental income;
 - unemployment or worker's compensation;
 - jury duty payments.
- If you are self-employed, base your estimate on what you think your net earnings will be - just like on your tax return. If you became entitled to Social Security benefits **before** 2013: (1) do not include in your estimate any Federal agricultural program payments you expect in 2013; and (2) do not include self-employment income received in 2013 from carry-over crops for work you did **before** you became entitled to Social Security benefits.
- If you get both wages and income from self-employment, add the two amounts together. The total is your estimate.

(OVER)

- **You will reach full retirement age in MAY 2016.**

Beginning with the month of full retirement age, the earnings limit no longer applies. If you will reach full retirement age in **January 2014**, you do not have to complete question 5 regarding your earnings for 2014.

People who reach full retirement age in February through December 2014 should exclude from their estimate of yearly earnings for 2014 any wages earned in the month they reach full retirement age and all following months. Self-employment income should be prorated based on the number of months under full retirement age. That is, divide expected net earnings (or loss) for 2014 by the number of months of self-employment and multiply this result by the number of months in 2014 before you reach full retirement age.

Now, you are ready to answer the following questions about your earnings. And again, it is important for us to hear from you.

Questions For

1. Earlier, you told us you will earn \$33,600 this year. How much do you now think you will earn in 2013?

Show your earnings for the whole year, including amounts you will **earn** both before and after you filed for Social Security benefits.

Show your answer in the space below.

Net Self-Employment Earnings	\$,					.		
Total Earnings	\$,					.		

Your Monthly Earnings.

So far you have figured out how much you plan to earn in 2013. Now you need to go back and estimate how much you will earn **each month**. We need to know this because we pay you based on how much you will earn each month.

It works like this. Usually, if you make more than the earnings limit, which in 2013 is \$15,120, we have to hold back some of your Social Security. But if we know how much you plan to earn in each month in 2013 we may be able to pay you more.

The same is true of self-employed people. The difference is that we will need to know how many hours you work in each month, instead of the amount of money you will earn.

For the following months in 2013, you previously told us that you will not earn over \$1,260 and will not work over 45 hours in self-employment.

JULY AUGUST SEPTEMBER OCTOBER NOVEMBER DECEMBER

2. If you work for wages, put an "X" in the box under each month when you will earn \$1,260 or less. Be sure to do it for the whole year.

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

Please go on to the next question.

3. If you are self-employed, how many hours will you work each month in 2013? Be sure to put something down for each month.

Your Retirement Plans

To help us make sure that we understand your answers, we would like to know if you have retired, or if you plan to retire this year.

4. Have you retired, or do you plan to retire in 2013?

If you retired, or plan to retire from your regular (full-time) employment in 2013, answer "YES" to this question even if you work or plan to work part-time.

Show an "X" in the box next to your answer.

NO I have not retired and I am not going to retire this year.

YES, I have retired, or plan to retire this year.

If you answered "yes", please show your **retirement date** in the space below.
