SPECIFIC QUESTIONS

1. Describe the project and its purpose:

Under Title 44 Code of Federal Regulations (CFR) Part 201, the Federal Emergency Management Agency (FEMA) requires State, Tribal and local governments to submit to FEMA for approval hazard mitigation plans. Under the said CFR provision, FEMA requires a mitigation plan to be submitted to FEMA for review and approval in order for the State/local/Tribal entity to be eligible for certain types of FEMA mitigation grants in the future. Mitigation plans are not retrieved by Personally Identifiable Information (PII).

On September 1, 2011, the Office of Management and Budget (OMB) approved an extension without change of the currently approved collection of State/Local/and Tribal Hazard Mitigation Plans and set an expiration date of September 30, 2014 under OMB Control Number 1660-0062.

FEMA is preparing a notice of proposed rulemaking to consider possible revisions to the mitigation planning regulations under 44 CFR Part 201 to change the current State Mitigation Plan (Standard and Enhanced) update requirements from 3 to 5 years. This proposed reduction in the frequency of the State and Enhanced Mitigation Plan updates should result in a reduction to the burden hours.

2. Status of Project:
