Office of Industries, Room 511-G
500 E Street, SW, Washington, DC 20436
Fax: 202-205-2217

The U.S. International Trade Commission (USITC) is conducting a fact-finding investigation regarding Indian industrial policies that discriminate against U.S. imports and investment, and their effect on the U.S. economy. The House Committee on Ways and Means and the Senate Committee on Finance requested this investigation. The Committees directed the USITC to survey U.S. companies about recent changes in Indian policies and the effect these changes have had on company strategies towards India. This questionnaire has been designed to collect information to fulfill this request. You can learn more about this investigation (no. 332-543) by clicking on the following button:

What we are asking you

If your organization has:	This survey asks:
No exports and no foreign affiliates	Limited information about your company so we can ensure our survey accurately represents your industry
Exports to, or foreign affiliates in, countries other than India	Whether Indian policies have affected your decision not to engage with India
Exports to India or foreign affiliates there	Your experience with Indian policies and how they have affected your company

Your organization is required by law to respond to this questionnaire.

Please read all instructions and return the completed questionnaire to the USITC no later than March 18, 2014.

We are requesting this information under the authority of section 332(g) of the Tariff Act of 1930 (19 U.S.C. § 1332(g)). Completing the questionnaire is mandatory, and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your possession (19 U.S.C. § 1333(a)). For more information on this questionnaire, contact project team members William Powers or Renee Berry at indiasurvey@usitc.gov. You may also call the team at 202-708-4721 or 202-708-2719.

Confidentiality

The Commission has designated as "confidential business information" the information you provide in response to this questionnaire, to the extent that such information would reveal the operations of your organization and is not otherwise available to the public. The Commission will not disclose such confidential business information except as provided for in section 9 of this questionnaire. Information received in response to this questionnaire will be aggregated with information from other questionnaire responses and will not be published in a manner that would reveal the operations of your organization.

Instructions

1. **Completing the questionnaire.** The best way to answer this questionnaire is to use an interactive version that is available online. To retrieve this version, go to the website shown below. Follow the instructions on this web page and save the questionnaire to your computer. Use this version of the questionnaire if you are completing it interactively.

<http://www.usitc.gov/indiasurvey>

If you prefer not to use the interactive version, you must contact the project team (see cover for contact information) and request a hard copy of the questionnaire. This is the only way to obtain a hard copy of the questionnaire; if you print out the interactive version, you will not have access to drop-down menus, and critical information will be missing.

2. **Accessing the file.** Open the questionnaire file using Adobe Reader software. If you have an old version of this software, you may be prompted by your computer operating system to upgrade (this is free software). **Contact the project team if you cannot open the file (see cover for contact information).**

Note: Once opened, the file will accept information. It has been designed to make it easy for you to complete the questionnaire electronically, and to minimize the need for the Commission's project team to contact you for clarifications.

3. **Entering information.** Please answer each question that applies to your organization. You can answer questions using the provided checkboxes, drop-down lists, and type-in entry areas. These entry areas are normally highlighted in blue, although this color may vary depending on your computer's settings. Some questions with drop-down lists let you customize the way you enter information (these cases will be indicated in the question text).

You will not be able to change the questionnaire itself or enter information outside the entry areas. Certain type-in entry areas will accept only numbers and not text.

4. **Navigation.** Move to entry areas by clicking on them. You can use the tab key to do this, but only within a page. Use the navigation buttons on the bottom of the page to move directly to a specific section.
5. **Entering numeric data.** Enter data for sales, employees, exports, etc. in full figures, not in thousands, millions, or similar format. For example, enter "123400000," not "123400" or "123.4." (Commas between digits will appear automatically after you enter the numbers.)
6. **Submitting the questionnaire.** Please keep the file as an Acrobat pdf file and do not convert it to another file format. The preferred method of submission is transmitting your questionnaire to our secure drop box at the website shown below. The PIN is **1969**.

<https://dropbox.usitc.gov>

Please see section 10 for all submission options.

General information

1. **Coordinating your organization's response.** If separate persons or departments within your organization will share responsibility for completing this questionnaire, please coordinate your responses so that the information your organization gives us is consistent. This will minimize our need to call you back for clarifications.
2. **Relationship to corporate structure.** Please provide a single response for your organization's activities. This may require your organization to combine information from two or more business units.

If it is not possible to combine responses, or it is unreasonably burdensome, then your organization may provide separate responses for business units, but please ensure that the information is complete and that there is no double-counting. If you have joint venture organizations operating in the United States, please ensure there is no double-counting with other business units of the joint venture partners.

3. **U.S. affiliates of foreign companies.** Please respond as if the affiliate were an independent organization operating in the United States. For example, show total sales for the affiliate and its subsidiaries only, and not for the foreign corporation.
4. **"You" and "Your."** Parts of the questionnaire refer to "you" and "your." These words refer to the organization that is responding to the questionnaire.
5. **"United States."** This refers to the customs territory of the United States, which includes the 50 states, the District of Columbia, and Puerto Rico.
6. **Year.** All references to years means calendar years. If you normally use fiscal years, please convert to a calendar year basis for the responses in this questionnaire.
7. **Questionnaire structure.** This questionnaire is composed of ten sections, as shown below.

Definitions

1. **Goods:** Products that are covered by the Harmonized Tariff System (i.e., any product for which imports are typically recorded by the Customs bureaus of national governments). This includes all agricultural products, natural resources, and manufactured products. If your firm exports "goods" that are provided digitally, such as software files transferred over the Internet, you should generally record these as exports of services (see definition below), rather than as goods, unless you also export the files on physical media (e.g., disks, hard drives) and cannot separate export figures for the two different forms.
2. **Services:** Products that do not have physical form. This includes wholesale trade, retail trade, transportation and warehousing, information, finance and insurance, real estate and rental and leasing, professional, scientific, and technical services, certain services provided by mining, utilities, and construction firms, and other services as defined in the 2007 version of the North American Industry Classification System (NAICS 2007). Products that are exported digitally and that are not also distributed on physical media (e.g., disks, hard drives) should be recorded as exports of services. Please see the definition of goods (above) for further guidance on the classification of digital exports.
3. **Foreign affiliate:** A firm in a foreign country in which your organization has an equity stake of 10 percent or more.
4. **Establishment:** A single physical location at which business is conducted and/or services are provided. It is not necessarily identical with a company or enterprise, which may consist of one establishment or more. The main objective of the site should be to conduct business. Independent contractors or employees working out of their homes should not be considered separate establishments.
5. **Sales:** Goods or services sales, net of returns, discounts, and allowances. Includes internal consumption and transfers to related organizations, as applicable, at fair market value. Same as sales as shown on a typical income statement.
6. **Employees:** The number of employees (including part-time and temporary workers) at your organization's facilities. Include production and related workers, managers, supervisors, technicians, office workers, etc. related to your organization's activities. If your firm is an affiliate of a foreign firm, include only employees that can be attributed directly to your organization's U.S. affiliates.

Section 1: Basic Information

- 1.3 Is the organization named above a subsidiary of an organization operating in the United States?

If this questionnaire has been sent to one or more subsidiaries and/or the related parent company, then there should be one coordinated response. If it is not possible to coordinate responses, or it is unreasonably burdensome, then your organization may provide separate responses for subsidiaries, but please ensure that the information is complete for your entire organization and that there is no double-counting.

- 1.4 Is the organization named above a parent company operating in the United States?

 No

If your organization is a parent company, then this submission should reflect all the activities of the subsidiaries that have U.S. operations. Alternatively, each subsidiary with U.S. operations may provide a separate questionnaire response.

Section 2: Activity in India

Beginning with this section, you will be asked to provide data on goods and services separately. You will also be asked to separate these data depending on whether these goods or services originate from your U.S. facilities or your Indian facilities. Please note:

The export of goods (or merchandise) includes the sale of goods by your U.S. facilities to customers in India. If these same goods were sold by your operations in India, then it would count as a foreign affiliate sale.

Service exports occur when your organization sells services from facilities based in the United States to consumers in India, with people, information, or money crossing national boundaries in the process. For example, if your organization has accountants based in the United States that provide services for a firm in India, these are service exports. If your organization sells the same service from accountants based in Indian facilities, then these count as foreign affiliate sales.

See the definitions section for more information about these terms.

2.1 During 2007-2013, did your organization (check all that apply):

- Export goods or services from the United States to **India**?
- Have an equity stake of 10 percent or more in an affiliated organization in **India**?

If you checked any of the boxes in question 2.1, please go to the next question.

If you did not check any of the boxes in question 2.1, please go to section 7.

2.2 In what year did your organization first engage in the Indian market via exports or foreign affiliate sales?

Year (XXXX)

- 2.3 Please list the value of your organization's exports of goods and services from the United States to India during the years indicated below. **Your best estimates are acceptable.** If you did not have any such exports, please leave these question response areas blank.

1	Total exports of goods to India from U.S. operations (in full-figures, not in millions or other format)			
2	Total exports of services to India from U.S. operations (in full-figures, not in millions or other format)			

Note: Total exports should include all exports that originated in the United States and whose final destination was India. The value should include exports to both affiliated and unaffiliated organizations in India, as well as any exports directly to final consumers. If your organization exported a product that combined or bundled a service, please allocate the values across the two categories.

No

- B. If yes, please indicate below how the price of the directly competing Indian goods or services compare, on average, with the goods or services sold by your firm in the Indian market. **Your best estimate is acceptable.**

Prices are comparable

Prices of your goods or services are higher than Indian goods or services by percent

Prices of your goods or services are lower than Indian goods or services by percent

- 2.5 Please list the value of your organization's equity investment in Indian affiliates and the value of sales by those affiliates during the years indicated below. **Your best estimates are acceptable.** If you did not have any such investment or sales, please leave these question response areas blank.

For both investment and sales, include only entities in which your organization controls 10 percent or more of the voting stock. If your organization sold a product that combined or bundled a service, please allocate the values across the two categories.

2.6 Please indicate the states in India in which your organization had establishments at the end of 2013. If you had no such establishments, please leave the question response check box(es) blank.

An establishment is a single physical location at which business is conducted and/or services are provided.
