**INSTRUCTIONS FOR
PRELIMINARY AMENDMENT 80 COOPERATIVE FLATFISH EXCHANGE REPORT**

NMFS requires each Amendment 80 (A80) cooperative to submit annually to the Council (see § 679.5(s)(7)) a preliminary A80 cooperative flatfish exchange report reviewing the use of the cooperative's ABC reserve for flathead sole, rock sole, and yellowfin sole. This would aid the Council during the annual harvest specifications process to assess the use of Flatfish Exchanges, the use of A80 cooperative quota (CQ), and weigh the potential socioeconomic impact of Flatfish Exchanges before establishing the ABC reserve.

The preliminary A80 cooperative flatfish exchange report must provide a review of the use of the cooperative's ABC reserve for flathead sole, rock sole, and yellowfin sole through

- ◆ flatfish exchanges,
- ◆ inter-cooperative transfers, and
- ◆ actual harvests for A80 cooperatives.

The preliminary A80 cooperative flatfish exchange report must be received by the Council not later than 1700 hours Alaska local time on December 1 of each year. A December 1 annual deadline for this report coincides with the harvest specifications process.

The preliminary A80 cooperative flatfish exchange report must be submitted to the Council at
