Introduction

Hello [insert name of interviewee],

Thank you for participating in today's interview. My name is [insert your name], and I am part of the Safe States/SAVIR team working on the Core VIPP evaluation. The goal of today's discussion is to hear about your experiences with the Core VIPP Regional Network Leader (RNL) Expanded Component during years one and two of the program. This is an opportunity for you to provide greater detail about the activities you've already reported on in project reporting like your RNL Action Plan and Annual Progress Reports for program years 1 and 2. The information from this interview will be used to develop an RNL evaluation report for program years 1 and 2, as well as for future process improvement activities.

Today's interview will last about one hour. I hope you feel comfortable sharing your thoughts and experiences with me, but if at any time you don't want to answer a question, that is fine. I want to make you aware that we have a limited amount of time to talk, and a lot of topics to cover. So when I perceive that you've answered a question fully, I'll move us to the next question. Please note that this interview is being recorded and our conversation will be transcribed after the call. Safe States, SAVIR, and CDC will have access to the information in this interview for the purposes of the evaluation only. Just as a reminder, the evaluation information acquired will not be used by CDC for future funding decisions.

You should have received an email with the questions I would like to ask you today. Did you receive that email? Do you have any questions before we begin?
