

Thank you for participating in the National Children's Study and agreeing to collect a sample of your breast milk.

This package contains a Breast Milk Collection Kit, which includes the supplies and instructions for collecting your breast milk. Also included in this kit is a Self-Administered Questionnaire for you to complete to record information about your sample collection.

Please collect your breast milk sample as close as possible to the date that your baby is _____ old.

Listed below are a few points that you may find helpful in completing the breast milk collection:

- Please review the contents of the Breast Milk Collection Kit carefully and contact us if you have any questions or concerns.
- Please follow the Breast Milk Collection Instructions provided in the Breast Milk Collection Kit to collect your sample.
- Please complete the Breast Milk Self-Administered Questionnaire (SAQ) after you collect your sample.
- As soon as you have collected your breast milk sample, please contact us to schedule a pick up time, no later than 7 days after collection.

Thank you for taking the time to complete this collection!
