Form 8941 Credit for Small Employer Health Insurance Premiums

A. JUSTIFICATION

1. Circumstances Making the Collection of Information Necessary

The Tax Forms and Publications (TF&P) Office of the Internal Revenue Service (IRS), Wage and Investment division, creates tax forms, instructions, and related publications to enable taxpayers to understand and fulfill their filing and reporting obligations under the tax laws of the United States.

In order to gather taxpayer comments on the new Form 8941, Credit for Small Employer Health Insurance Premiums, TF&P seeks reaction and suggestions for improvement. TF&P would like to use focus groups to determine the usability and understandability for the form and its' instructions, and receive specific suggestions for improvements. TF&P will use these suggestions to improve the Form 8941 and its' instructions.

2. Purpose and Use of the Information Collection

The objective of these focus groups is to gather input from taxpayers to determine their reaction to the Form 8941 and its' instructions. The specific business questions to be explored by this project are to:

- Participants' overall perception of the new Form 8941 and its' accompanying instructions
- Common errors participants make when completing Form 8941
- Parts of the form and instructions that participants find most helpful
- Specific suggestions participants have for improving Form 8941 and its' instructions

This information will assist the division in developing clear tax products that assist taxpayers in voluntarily meeting their tax obligations and reporting their business income accurately. To achieve these objectives, the division plans to hire a vendor, ICF Macro, to conduct a total of 8 focus groups, (2 per city) in 4 separate cities. Each focus group will consist of at least 8 participants, with 10 being the ideal number of participants. The focus groups will last 2 hours. Upon arrival, participants will be re-screened to confirm their eligibility.

TF&P also expects to gain knowledge of participants' reactions to the revised form to discover what parts of the documents lead to error or misunderstanding. Upon

completion of this project ICF Macro will submit a report of findings to TF&P to determine improvements that could be made. The feedback received will not institute new policy, yet enable the Service to effectively meet taxpayer needs.
