In lieu of a weight certificate in the form prescribed in paragraph 1 of this section, an official weight certificate issued pursuant to any provisions of the USDA or an official weight certificate issued pursuant to the AMA of 1946, as amended, on nuts stored or to be stored in a warehouse licensed under the USWA is acceptable for purposes of the USWA.

C. Inspection and Weight Certificate

The quality and weight of any nuts, ascertained by a sampler, inspector, and/or a weigher licensed under the USWA, may be stated on a certificate meeting the combined requirements of subsections A and B, provided the form of the certificate is approved by DACO.

**IX. Determining Quality**

A. Official Nut Standards of the United States

The United States Standards promulgated by AMS are the official standards for nuts under the USWA.

B. Peanut Standards

The Peanut Standards, as defined in Section I of this Agreement, are the standards for peanuts under the USWA.

C. Standards of Grade for Other Nuts

Until official standards are fixed and established for the kind of nut to be inspected, the grade of the nuts will be stated, subject to the approval of DACO: (any of the following):

1. in accordance with the State standards, if any, established in the State in which the warehouse is located,
2. in the absence of any State standards, in accordance with the standards, if any, adopted by the local board of trade, Chamber of Commerce, or by the nut trade generally in the locality in which the warehouse is located, or
3. in the absence of the standards mentioned in paragraphs 1 and 2 of this section, in accordance with any standards approved by DACO.

**X. Nut Grading Appeals**

A. Ability to Appeal

1. No person licensed under the USWA, will, directly or indirectly by any means whatsoever, deter or prevent or attempt to deter or prevent any party from making an appeal.
2. No rule, regulation, bylaw, or custom of any market, board of trade, Chamber of Commerce, exchange, inspection department or similar organization nor any contract, agreement or understanding, will be grounds for refusing to determine any appeal.

B. Appeal Procedure

The depositor, holder of the warehouse receipt or the Warehouse Operator may make an appeal of grade of nuts stored or to be stored in a warehouse. If the original grade certificate was issued by an inspector licensed under, or authorized by the AMA, the appeal, including the amount of fees, will be governed by the regulations issued under AMS respectively; otherwise, the appeal, including fees will be governed by this Agreement.

## C. Request for Appeal

1. The Warehouse Operator agrees to accept a request for an appeal inspection by a depositor or holder of the warehouse receipt made by written notice to the Warehouse Operator before the identity of the representative sample of nuts has been lost and not later than the close of business on the first business day after being furnished the results of the original inspection.
2. If the appeal is requested by the Warehouse Operator, notice must be given promptly to the owner of the nuts. Oral notice may be made if followed by written notice.
3. A representative sample must be retained for third party evaluation. That sample will not be destroyed until all parties are satisfied.
4. If the identity of the nuts are preserved and if the parties are unable to agree on such a sample, a sample drawn by a duly licensed sampler and inspector in the presence of the interested parties must be deemed binding. In no case will the sample be less than 2000 grams by weight.

## D. Appeal Samples

1. For nuts for which there are official U.S. Standards, the sample will be secured and delivered to the nearest office charged with providing official inspection service under the AMA. At this point, procedures to determine the grade of the nuts will be as set forth in regulations issued under the AMA, as is applicable.
2. For nuts for which there are no official U.S. Standards, the party requesting the appeal will apply directly to DACO for relief. DACO will determine the appeal based on approved standards and set the required fees, such determination will be binding on all interested parties.
3. The sample must be accompanied by **(each)** of the following):
  - a. a copy of the written request for appeal,
  - b. the nut inspection certificate originally issued, and
  - c. an agreement to pay the costs of such inspection as prescribed by the AMA or DACO.
4. The sample of the nuts involved in the appeal must be submitted for inspection as soon as possible. The appeal certificate will supersede the original inspection certificate. The original or a copy of the appeal certificate will be sent to the party requesting the appeal with copies distributed to depositor or holder of the warehouse receipt, the Warehouse Operator and the licensed sampler and inspector executing the original certificate.

## E. Owner Not Compelled to Store Nuts

Nothing in this Agreement will require the owner or agent to store such nuts with the Warehouse Operator after the appeal inspection, but if the nuts are stored it will be accepted for and delivered out of storage in accordance with the grade as finally determined in such appeal.

**XI. Dispute Resolution and Arbitration**

- A. A person may initiate legal action in any court of competent jurisdiction concerning a claim for noncompliance or an unresolved dispute with respect to activities authorized under the USWA.
- B. Any claim for noncompliance or an unresolved dispute between the USWA Warehouse Operator or USWA Electronic Service Provider and another party with respect to activities authorized under the USWA may be resolved by the parties through mutually-agreed upon arbitration procedures.
- C. In no case will DACO provide assistance or representation to parties involved in an arbitration proceeding arising with respect to activities authorized under the USWA.

**XII. Fines and Penalties**

The Warehouse Operator and their employees are subject to the provisions of criminal and civil fraud statutes that apply to making a false certification or statement, illegal conversion or removal of stored nuts from USWA licensed space, fraudulent adjustments or correction, and concealment of operational or financial condition and as such may be punishable by imprisonment, fines, and other penalties including but are not limited to the following: 18 U.S.C. 286, 287, 371, 641, 651, 1001, and 1014; and 31 U.S.C. 3729.

**XIII. Warehouse Operator Failures, Defaults - Remedies**

A schedule showing the current fees or any fee changes is provided as an addendum to this Agreement.
