The information requested on this form is not confidential and will be available to the general public upon request.

The Paperwork Reduction Act requires potential respondents for a dealer/processor permit be notified of certain information regarding their rights and the burden associated with applying for a Federal dealer/processor permit. One of the regulatory steps taken by the National Marine Fisheries Service (NMFS) to carry out conservation and management objectives is the requirement of a permit for users of the resources. All the fisheries included on this application require a permit to purchase, or otherwise receive for transport for a commercial purpose, other than solely for transport on land, species harvested by the owner or operator of a fishing vessel issued a Federal fisheries permit for these species. Section 303(b)(1) of the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA) specifically recognizes the need for permit issuance.

The purpose and use of permits is to: (1) register fish dealers and processor, (2) list the characteristics of dealer/processor operations, (3) exercise influence over compliance (e.g. withhold issuance pending collection of unpaid penalties and / or required reports), (4) provide a mailing list for the dissemination of important information to the industry, (5) provide a universe for data collection samples, and (6) obtain first purchase information on landings to evaluate the biological, economic and social implications of management measures.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number. Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the information. Send comments regarding this burden estimate or suggestions for reducing this burden to: National Marine Fisheries Service, Permit Office, 55 Great Republic Drive, Gloucester, MA 01930-2276.
