Request for Approval under the "Generic Clearance for the Collection of Routine Customer Feedback" (OMB Control Number: 0690-0030)

TITLE OF INFORMATION COLLECTION:

Advocacy Center Customer Satisfaction Comment Card

PURPOSE:

The International Trade Administration's U.S. Commercial Service (CS), Advocacy Center (AC) is using this instrument to create an accurate measure of AC client satisfaction. There is renewed attention within the federal government on improving customer service with the passing of the Government Performance and Results Act (GPRA) Modernization Act in 2010 and the issuance of a Presidential Order in May 2011. The AC does not have any customer feedback mechanism in place. CS currently measures client satisfaction in, "Assistance with trade advocacy/international government procurements" in its CS-wide survey; however, this survey doesn't query formal AC Clients and the question does not capture big "A" Advocacy Services.

AC leadership will use these responses to tailor AC client interactions and continue to refine client services.

DESCRIPTION OF RESPONDENTS: Respondents are active Advocacy Center Clients who consumed Advocacy Center Services in a time period as specified by the Advocacy Center.

Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe? [X] Yes [] No If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them? This survey will draw respondents from our client lists that have been contacted by the Advocacy Center in the last time period that the Advocacy Center is surveying. For example, our initial survey captures customer satisfaction in FY12O1 will only seek respondents who have been contacted by the AC from October 1, 2011 to December 31, 2011. The nature of AC work is inherently significant (in depth consultation is completed with the client at the outset) and the population of clients is relatively small. Therefore, all clients who were contacted in the time period will be contacted and a sampling methodology is not required. Administration of the Instrument 1. How will you collect the information?
