**TITLE OF INFORMATION COLLECTION:** Harmful Algae Website User Survey

**PURPOSE:**

To provide information about user needs before revising a NOAA-funded Web site.

NOAA funds the Harmful Algal Bloom (HAB) National Office through the Cooperative Institute for the North Atlantic Region (CINAR). The National Office maintains a Web site (<http://www.whoi.edu/redtide/>) to provide information on Harmful Algal Blooms, which currently has 6,500- 7,500 visitors/mo. No data are available to determine who those visitors are except for e-mail domain names. They are thought to include K-12, undergraduate, and graduate students, teachers, researchers, journalists, tribal, local, state, and federal public health, resource, water quality, or program managers, industry, and members of the public.

The Web site last underwent a major revision in 2007 and now needs updating. Before it is updated, it was decided that it would be useful to know the target audience(s) and their interests. Anyone visiting the Web site will be asked to fill out the attached 3-question survey; participation is strictly voluntary.

**DESCRIPTION OF RESPONDENTS:**

Anyone who visits the Web page and is willing to fill out the survey. We estimate that 10% of the ~7,000/mo visitors will respond to the survey.

**TYPE OF COLLECTION:** (Check one)

**CERTIFICATION:**

I certify the following to be true:

1. The collection is voluntary.
2. The collection is low-burden for respondents and low-cost for the Federal Government.
3. The collection is non-controversial and does not raise issues of concern to other federal agencies.
4. The results are not intended to be disseminated to the public.
5. Information gathered will not be used for the purpose of substantially informing influential policy decisions.
6. The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the future.
