Basic Information

We've been operating the NIST MEP Emerging Leaders program for eight years - and we wanted to take a good look at the results from your perspective. This survey should take approximately 10 minutes to fill out and complete and will help us understand the role of this effort across the system and help highlight areas we can improve as we approach our 9th and 10th years. Thanks ahead of time for filling this out.

OMB Control No. 0690-0030

This collection of information contains Paperwork Reduction Act (PRA) requirements approved by the Office of Management and Budget (OMB). Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number. Public reporting burden for this collection is estimated to be 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the National Institute of Standards and Technology, Attn: Tab Wilkins twilkins@nist.gov.
