#### **BURDEN HOURS**

Category of Respondent	No. of	Participation	Burden
	Respondents	Time	
Private sector	300	5 minutes	25.00 hr
Totals	300	5 minutes	25.00 hr

The EDA estimates that 100% of the surveys will be submitted electronically. (Based on past experience with customer satisfaction surveys, we expect approximately a 33% response rate based on survey responses. Effectively, the true burden will likely be 33% of the maximum possible rate reported in the table above: Estimated true burden: 8.33 hours.)

**FEDERAL COST:** The estimated annual cost to the Federal government is a GS-12 step 5 at 30 hours + 30% to account for overhead and other costs: \$43.44 + 13.03 = \$56.47 (pre-tax) = \$1,694.10

If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:

## The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?

[X] Yes [] No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

EDA maintains a database with information on firms submitting petitions to be certified for Trade Adjustment Assistance to Firms assistance. A query of that database will provide e-mail addresses for firms certified within a certain fiscal year. EDA intends to survey all firms that were certified within the past fiscal year.
