NCIPC Determination of Applicability of Human Subjects Regulations, Request to Classify Project as Not Involving Human Subjects or Research

Project/FOA Title: Institutional awareness	and commitment survey
Science Officer(s)_JOANNE KLEVENS_	Division: _VIOLENCE PREVENTION_ Telephone: _770-488-1386 Ethics verification number:15227
Project Officer(s)	Division: Telephone:
	Ethics verification number:
Proposed Project Dates: Start: Immediately	following OMB approval Ending: 36 months after approval of OMB
Award Title: Implementation of Essentials	for Childhood: Safe, Stable, Nurturing Relationships and Environments
Award Institution: NCIPC	
Funding Mechanism # FOA#: Cooperative Agreement #: CE13- Grant #: Contract#:	1303 The second supplies of the second supplies to the second suppl
Funding Sponsor:	
Number of Participants in Study: 165	Addough CDC sturing Subjects (IRB) review is not respected in this mission.
Intramural or Extramural: extramural Categories of data collection that do not co engaged are listed below. Please check app	nstitute human subjects research OR do involve human subjects but CDC not propriate category:
I. Activity is not research. Primary in	ntent is public health practice: disease/injury control, surveillance,
improvement of programs or services. Obje	ectives focused on a specific population.
A. Epidemic/endemic disease/control needs.	'injury control activity; collected data directly relate to immediate disease
B. Routine disease/injury sur for a specific health conditi	weillance activity; data used for disease control program or policy purposes on/disease in a specific population and setting. (Includes disease reporting) ity; data are used primarily for assessing, monitoring or improving a program
Justification: Please attach project goals/a	ims, objectives, design, setting and participants, methods, and data sources.
-OR-	
II. Activity is research but does NOT	involve identifiable human subjects. Primary intent is to develop or
contribute to generalizable knowledge.	claine A guillanti
	ing collection/analysis of data about health facilities or other
	hich are <i>not individual persons</i> or ing data and/or specimens from <i>deceased persons</i> .
b. Activity is research involvi	ng data and/of specimens from deceased persons.

Justification: Please attach project goals/aims, objectives, design, setting and participants, methods, and data sources.

-OR-

III. Activity is research involving human subjects but CDC – including employees, visiting scientists, fellows, and on-site contractors (but not off-site contractors or other collaborators) - will NOT obtain data by intervening or interacting with participants and will NOT have access to identifiable (including coded) private data or biological specimens.

Justification: Please provide a summary of CDC's role and explain that CDC will not be "engaged" in either obtaining data by intervening or interacting with participants or have access to identifiable data. Staff can have access to data that have been stripped of the codes that link information to individuals and still be considered to not be "engaged" in human subjects research. Also, please attach a summary of project goals/aims, objectives, design, setting and participants, methods, other data sources and plans for local IRB review.

Once local IRB approval has been obtained please forward a copy (electronic preferred) to **Jahlani Akil** - the Human Subjects Contact - for records keeping purposes.

Attach project description in enough detail to clarify "non-human subjects", "non-research" or "not-engaged" nature of the product.

Comments/Rationale:

Although CDC Human Subjects (IRB) review is not required in this instance, investigators/project officers are expected to adhere to ethical principles and standards by respecting and protecting to the maximum extent possible the privacy, confidentiality and autonomy of participants. All applicable State and Federal privacy laws must be followed.
