The purpose of this worksheet is to determine, in advance, individuals who could be interviewed during the site visit. Please use this form to identify people who are responsible for the intervention-related tasks about which we are interested in learning. Because every organization uses its own names, terms, and arrangements, information on the tables will help you to be clear about the types of persons with whom we would like to talk.

Please return the Suggested Interviewees Form to Revae Downey at [Revae .Downey@icf.com](mailto:Revae.Downey@icf.com) by [insert date].

After you have returned the form, an ICF International representative will contact you to confirm who is to be interviewed. We will use the list of possible interviewees you provide to finalize the number and schedule of interviews that the site visitors will conduct during the visit.

- Please provide the title, name, and intervention involvement for each suggested interviewee as indicated for each of the categories listed.
- Please return the form to Revae Downey via e-mail at [Revae .Downey@icf.com](mailto:Revae.Downey@icf.com) for review. An ICF International representative will arrange a follow-up call with you and the assigned site visitors to review the list and ensure that the appropriate individuals have been identified for the interviews.
- After the telephone review and revision of the the schedule, if need be, an ICF International representative will provide you with instructions and a template to use when confirming each of the selected persons to be interviewed, as well as the time and location.
