

ATTACHMENT U: Reminder Email Partial Response

Dear Preparedness Director:

We recently contacted you to complete an assessment about important topics in public health emergency preparedness and response. As a reminder, NORC at the University of Chicago is conducting study on behalf of the Centers for Disease Control and Prevention (CDC) to identify which areas of public health emergency preparedness and response need additional research to validate, improve, and better inform programmatic and policy decisions.

We noticed that you started the assessment and request that you complete it at your earliest convenience. Please go to <http://www.xxx.org> and follow the instructions on the screen to complete the assessment and submit your responses.

Your responses will help CDC to better understand the public health practice research needs and priorities for public health preparedness and response. Thank you in advance for your participation.

Sincerely,

Michael Meit
Project Director
NORC at the University of Chicago
