The **PHAB STANDARDS** apply to all health departments—Tribal, state, local, and territorial. Standards are the required level of achievement that a health department is expected to meet. Domains are groups of standards that pertain to a broad group of public health services. The focus of the PHAB standards is “what” the health department provides in services and activities, irrespective of “how” they are provided or through what organizational structure. Please refer to the **PHAB Standards and Measures** Version 1.5 document, available at www.phaboard.org, for the full official standards, measures, required documentation, and guidance.
