FROM: NIH Privacy Act Officer

SUBJECT: Applicability of the Privacy Act: NIH External Constituency Surveys

I have reviewed the OD/OER submission to OMB referenced above. The project involves surveys of NIH grant applicants, peer reviewers, and advisory council members and will obtain their input about their satisfaction with recent changes in the peer review process and anticipated changes to address the reproducibility of research funded by NIH. The survey results will be used to develop recommendations to further refine the enhanced peer review process.

The surveys will be conducted online and invitations to participate in the survey will be sent to a selected sample of members via email and later by mail, if needed. Although the surveys will contain demographic questions (race, ethnicity, gender, age) and collect work-related information (employer organization, job title, education, application and funding history), they will not be linked to the individual respondent. However, the sample information collected will be retrieved by a personal identifier (i.e., Commons Profile ID) and linked to the individual respondents in case email invitations fail to deliver and the survey has to be traced back to the respondent.

An independent contractor, RTI International, will collect and collate the surveys electronically, and will also be responsible for initial data analysis and reporting. All data will be analyzed and reported in an aggregate form that does not personally identify any applicant or reviewer. The data sets transferred back to NIH staff will be fully de-identified and access to data will be restricted to project staff members on an as-needed basis.

I have determined that the Privacy Act will apply to this data collection as the survey respondents will be linked to the sampling frame. This data collection is covered by NIH Systems of Record Notice 09-25-0036, entitled "Extramural Awards and Chartered Advisory Committees (IMPAC 2), Contract Information (DCIS), and Cooperative Agreement Information, HHS/NIH." If you have questions, please contact me at (301) 402-6201.
