

Justification of Non-material Change

(0938-1221)

The Spanish and Chinese translated versions of the Enrollee Satisfaction Survey and the Marketplace Survey were being finalized based on revisions made per OMB's review of the ICR. In addition, the survey vendor application form was inadvertently omitted from the instruments uploaded for OMB's final review and approval. The translated surveys and the vendor form were available for public inspection and comment during the 60- and 30-day comment period as well as for OMB's initial reviews.
