New hint question:

New hint answer:

The Fish and Wildlife requires electronic reporting of take, loss, and transfer of falconry birds.

If this is your first visit to the new system, before proceeding you need to get a federal identifier. It is **not** your permit number; it is an identifier just for use with the 3-186A system.

Click [here](#) to get one and to fill out a 3-186A form.

If you already have a federal identification number, you can click [here](#) to report or to update your information.

If you have a federal **Raptor Propagation** or **Abatement Permit**, you must send a signed **hard copy** of the form 3-186A to your Regional Migratory Bird Permits office for any transfers onto or off of those permits.

If you have website questions, comments, click [here](#) to send an email.
Click [here](#) for a brief user's guide.

The 3-186A system works best with Internet Explorer (IE)
