Proposed Information Collection; Survey of Residents' Attitudes on Jaguar Conservation

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice; request for comments.

SUMMARY: We (U.S. Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by February 18, 2014.

ADDRESSES: Send your comments on the IC to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 2042-PDM, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); or hope_grey@fws.gov (email). Please include "1018-Jaguar Resident Survey" in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Hope Grey at hope_grey@fws.gov (email) or 703-358-2482 (telephone).

SUPPLEMENTARY INFORMATION:

I. Abstract

This survey is designed to elicit information about the public's perspectives on attitudes towards and beliefs about jaguars in the

Northwestern Recovery Unit (southern Arizona and southwestern New Mexico). We plan to survey 200 residents, land-based business owners/operators, related government agency personnel, and local wildlife association and/or conservation organization members in the Northwestern Recovery Unit. The survey will gather information on people's current level of knowledge about jaguar ecology and status, people's attitudes towards jaguars, and the social barriers and opportunities to jaguar conservation in this region. The surveys will be in-person interviews. This information will aid us in identifying groups that might be interested in being involved or staying informed about jaguar conservation and highlighting groups with particular concerns that might be addressed in forthcoming policies or programs. We will use information gained from this survey to formulate future jaguar conservation strategies as well as to create educational and outreach materials for jaguar recovery.

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection covers permit applications and reports that our Division of Management Authority uses to determine the eligibility of applicants for permits requested in accordance with the criteria in various Federal wildlife conservation laws and international treaties. Service regulations implementing these statutes and treaties are in chapter I, subchapter B of title 50, Code of Federal Regulations (CFR). These regulations stipulate general and specific requirements that when met allow us to issue permits to authorize activities that are otherwise prohibited.

We are not proposing any major changes to the applications and reports currently approved under OMB Control Number 1018-0093. You may view the currently approved forms at <http://www.fws.gov/forms/display.cfm?number1=200>. We are proposing a new application: FWS Form 3-200-88 (Musical Instrument (CITES)). The Musical Instrument application will be for multiple border crossings for noncommercial use (including, but not limited to, personal use, performance, display, or competition).

SUPPLEMENTARY INFORMATION:

I. Abstract

We have contracted with the University of Arizona to conduct a survey of approximately 300 southern Arizona landowners, ranchers, and ranch managers to determine their knowledge of and attitudes toward jaguar habitat, the level of knowledge regarding payments for ecosystem services, and attitudes and interest toward a payment for ecosystem services intended to benefit jaguar habitat. This survey is necessary because there is currently no statistically significant information available about rancher attitudes toward jaguar habitat or their understanding of payments for ecosystem services.

The survey will improve landowner knowledge on these issues and will inform our evaluation of the practicality of a payment for ecosystem services for the benefit of jaguar habitat in southern Arizona. It will also aid in the implementation of jaguar habitat conservation efforts by increasing our knowledge of landowner, rancher, and ranch manager attitudes toward jaguars and jaguar habitat management in southern Arizona.

Information collected in the survey will include data on knowledge of jaguar habitat attributes, opinions and attitudes about the designation of critical habitat in southern Arizona, knowledge of payment for ecosystem services programs generally, and opinions and attitudes about participation in payment for ecosystem services programs.
