Abstract: The Trends in Mathematics and Science Study (TIMSS) is an international assessment of fourth and

eighth grade students' achievement in mathematics and science. Since its inception in 1995, TIMSS has continued to assess students every 4 years (1995, 1999, 2003, 2007, 2011). Participation in this study provides data on current and past education policies and a comparison of U.S. education policies with its international counterparts. Periodically, TIMSS has also conducted an assessment of advanced mathematics and physics of students at the end of secondary school (1995 and 2008). The United States participated in TIMSS Advanced in 1995, but not in 2008. Because of the current strong policy interest in preparedness for college and for careers in science, technology, engineering, and mathematics (STEM) fields, the U.S. plans to participate in TIMSS Advanced in 2015. This submission describes the overarching plan for all phases of the data collection, including the field test that will take place in March–April, 2014, and the main study that will take place in April–May, 2015. The purpose of the TIMSS field test is to evaluate new assessment items and background questions (including the new parent questionnaire), to ensure practices that promote low exclusion rates, and to ensure that classroom and student sampling procedures proposed for the main study are successful. This submission requests approval for recruitment for the 2014 field test and the 2015 main study; the 2014 field test data collection for TIMSS at grades 4 and 8 and TIMSS Advanced in grade 12; and a description of the overarching plan for all of the phases of the data collection, including data collection in the 2015 main study.

Dated: June 24, 2013.
