

Estimated Total Annual Non-hour Respondent Cost Burden: \$130,138. There are no capital start-up, maintenance, or recordkeeping costs associated with this information collection. However, this collection does have annual (non-hour) cost burden in the form of service fees associated with deposit accounts and returned payments as well as postage costs.

There are service fees for setting up a deposit account at the USPTO, for not maintaining the minimum balance required for the deposit account, and for returned payments. The service charge to establish a deposit account is \$10, and the USPTO estimates that it processes 284 Deposit Account Application Forms annually, for a total of \$2,840 per year. There is also a \$25 service charge for deposit accounts that are below the minimum balance (\$1,000 minimum balance for an unrestricted deposit account or \$300 minimum balance for a restricted deposit account) at the end of the month. The USPTO estimates that it assesses 4,000 of these low balance charges annually, for a total of \$100,000 per year. There is a \$50 service charge for processing a payment refused (including a check returned "unpaid") or charged back by a financial institution. The USPTO estimates that it assesses 129 of these returned payment charges annually, for a total of \$6,450 per year. The total estimated service fees for this collection are \$109,290 per year.

Customers may incur postage costs when submitting the Credit Card Payment Form and other paper forms or requests to the USPTO by mail. Customers generally send the Credit Card Payment Form to the USPTO along with other documents related to the fee or service being paid for by credit card, but some customers may submit just the Credit Card Payment Form without additional supporting documents. The USPTO estimates that roughly 5 percent of the 103,115 paper Credit Card Payment Forms submitted annually may be mailed in by themselves, or approximately 5,156 per year. The USPTO estimates that it will receive an additional 37,391 submissions per year that may be mailed, including Deposit Account Replenishments and Refund Requests, for a total of 42,547 mailed submissions per year. The USPTO estimates that the first-class postage cost for a mailed submission will be 49 cents, for a total postage cost of approximately \$20,848 per year.

The total annual (non-hour) respondent cost burden for this collection in the form of service fees and

postage costs is estimated to be approximately \$130,138 per year.

DEPARTMENT OF DEFENSE**Defense Acquisition Regulations System**

[Docket No. DARS–2014–0014]

Negotiation of a Reciprocal Defense Procurement Memorandum of Understanding With the Republic of Slovenia

AGENCY: Department of Defense.

ACTION: Request for public comments.

SUMMARY: On behalf of the U.S. Government, DoD is contemplating negotiating and concluding a Reciprocal Defense Procurement (RDP) Memorandum of Understanding (MOU) with the Republic of Slovenia (hereafter “Slovenia”). DoD is requesting industry feedback regarding its experience in public defense procurements conducted by or on behalf of the Slovenian Ministry of Defense or Armed Forces.

DATES: Submit written comments to the address shown below on or before March 14, 2014.

ADDRESSES: Submit comments to Defense Procurement and Acquisition Policy, Attn: Mr. Victor Deal, 3060 Defense Pentagon, Room 5E621, Washington, DC 20301–3060; or by email to Victor.T.Deal3.civ@mail.mil.

FOR FURTHER INFORMATION CONTACT: Mr. Victor Deal, Senior Analyst, Office of the Under Secretary of Defense for Acquisition, Technology and Logistics (OUSD(AT&L)), Defense Procurement and Acquisition Policy, Contract Policy and International Contracting; Room 5E621, 3060 Defense Pentagon, Washington, DC 20301–3060; telephone (703) 697–9351.

SUPPLEMENTARY INFORMATION: The RDP MOUs that DoD has with 23 “qualifying” countries are concluded at the level of the Secretary of Defense and his counterpart. The purpose of RDP MOUs is to promote rationalization, standardization, and interoperability of conventional defense equipment with allies and other friendly governments. These MOUs provide a framework for ongoing communication regarding market access and procurement matters that enhance effective defense cooperation.

RDP MOUs generally include language by which the Parties agree that their defense procurements will be conducted in accordance with certain implementing procedures. These procedures relate to—

- Publication of notices of proposed purchases;
- The content and availability of solicitations for proposed purchases;

- Notification to each unsuccessful offeror;

- Feedback, upon request, to unsuccessful offerors concerning the reasons they were not allowed to participate in a procurement or were not awarded a contract; and

- Providing for the hearing and review of complaints arising in connection with any phase of the procurement process to ensure that, to the extent possible, complaints are equitably and expeditiously resolved.

Based on the MOU, each country affords the other country certain benefits on a reciprocal basis consistent with national laws and regulations. The benefits that the United States accords to the products of qualifying countries include—

- Offers of qualifying country end products are evaluated without applying the price differentials otherwise required by the Buy American statute and the Balance of Payments Program;
- The chemical warfare protection clothing restrictions in 10 U.S.C. 2533a and the specialty metals restriction in 10 U.S.C. 2533b(a)(1) do not apply to products manufactured in a qualifying country; and
- Customs, taxes, and duties are waived for qualifying country end products and components.

If DoD (for the U.S. Government) concludes an RDP MOU with the Republic of Slovenia, then Slovenia would be listed as one of the “qualifying countries” in the definition of “qualifying country” at DFARS 225.003, and offers of products of Slovenia or that contain components from Slovenia would be afforded the benefits available to all qualifying countries. This also means that U.S. products would be exempt from any analogous “Buy Slovenia” and “Buy European Union” laws or policies applicable to procurements by the Slovenian Ministry of Defense or Armed Forces.

While DoD is evaluating Slovenia's laws and regulations in this area, DoD would benefit from U.S. industry's experience in participating in Slovenia's public defense procurements. DoD is, therefore, asking U.S. firms that have participated or attempted to participate in procurements by or on behalf of Slovenia's Ministry of Defense or Armed Forces to let us know if the procurements were conducted with transparency, integrity, fairness, and due process in accordance with published procedures, and if not, the nature of the problems encountered.

DoD is also interested in comments relating to the degree of reciprocity that exists between the United States and Slovenia when it comes to the openness
