

**Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 3145-0215)**

---

**TITLE OF INFORMATION COLLECTION:** NSF Web Survey

**PURPOSE:**

In alignment with the requirements of the federal Digital Government Strategy, NSF plans to request voluntary feedback from visitors to NSF’s web sites (i.e., NSF.gov). Site visitors will be asked questions associated with four baseline metrics that will assess overall customer experience, completion rate of intended task, percentage of visitors likely to return, and percentage of visitors likely to recommend the site. The specific survey questions that NSF plans to use are the recommended customer satisfaction metrics developed by the General Services Administration (GSA) Digital Analytics Program within the Digital Services Innovation Center. As required by Milestone 8.2 of the Digital Government Strategy, NSF will use the customer satisfaction measures to make data-driven decisions about the performance measurement of our web sites. Specifically, NSF will use the survey results to baseline customer perception, and will benchmark results periodically in order to come up with an action plan (if needed).

**DESCRIPTION OF RESPONDENTS:**

Because the survey will be voluntary, respondents will self-select. Potential respondents include visitors to NSF web sites, such as members of the general public, educators, scientists and engineers, media, and federal policy makers.
