If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:

The selection of your targeted respondents

- Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?
 Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

The respondents are a sampling of PIs who submitted proposals to NSF and/or reviewers who rated proposals between FY 2012 and FY 2014. Because of the structure of NSF’s merit review system, reviewers are selected among past and current PIs, so many of the selected PIs will also have served as reviewers and will be able to speak to that aspect of the merit review system. The survey will include filters to capture individuals who have served only as PIs, only as reviewers, or as both so as to reduce burden and avoid nonapplicable questions.

Administration of the Instrument

- How will you collect the information? (Check all that apply)
 - Web-based or other forms of Social Media
 - Telephone
 - In-person
 - Mail
 - Other, Explain
- Will interviewers or facilitators be used? Yes No

Please make sure that all instruments, instructions, and scripts are submitted with the request.
