

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 3145-0215)

TITLE OF INFORMATION COLLECTION: *Dear Colleague Letter – Seeking Community Input on Polar Programs Realignment at the National Science Foundation.*

PURPOSE: *The National Science Foundation’s (NSF) Division of Polar Programs (PLR) promotes the progress of science in the polar regions, supporting pioneering polar-oriented science as well as science that exploits the unique characteristics of the polar regions as platforms for research in many disciplines. PLR oversees substantial logistics capabilities and infrastructure and also carries out specific responsibilities for managing the United States Antarctic Program on behalf of the U. S. government.*

Prior to 2013, PLR operated as the Office of Polar Programs (OPP) within NSF’s Office of the Director. In 2013, NSF realigned several functions, including positioning PLR within its Directorate for Geosciences (GEO), but did not change the mission of the enterprise.

NSF is conducting a review of PLR’s position within NSF, now that there exist several years of experience operating in this new configuration; this review is meant to be forward-looking and data-driven. Input from the science and engineering research community is an important component of this review process.

DESCRIPTION OF RESPONDENTS: *NSF anticipates input from interested members of the broad science and engineering community, the agency’s core constituency.*
