

## Voluntary Reporting of Planned Licensing Request Submittals Survey

### Note 1:

The NRC is requesting information on planned licensing actions in order to better plan its resource utilization. It is not the NRC's intention to use the information to restrict any emergent licensing actions. Licensees are not bound by the responses. Licensees may submit licensing actions that are not indicated in the response to the survey and may decide not to submit previously reported expected licensing actions at their discretion unless bound by a regulatory requirement.

### Note 2:

This survey also includes more specific questions for power uprates. Licensees are requested to involve their management, as appropriate, to ensure that responses to this survey are based on realistic plans for power uprates. This will help to facilitate the NRC's planning process for power uprate reviews and preclude having substantial slips in application dates (i.e., late applications), or receiving unexpected applications that could impact the availability of staff resources. Review of late or unexpected applications will be scheduled to the extent practical, on a case-by-case basis.

### Note 3:

Licensees are requested to complete this portion of the survey regardless of whether they have received a power uprate in the past or currently have a power uprate under NRC review. Licensees that currently have a power uprate under NRC review should not complete the survey with respect to that uprate. Instead, they should complete the survey with respect to any additional future power uprate applications that may be planned.

### **Paperwork Reduction Act Statement**

This survey contains information collections that are covered by the Office of Management and Budget clearance number 3150-XXXX, which expires XX/XX/XXXX. The burden to the public for these voluntary information collections is estimated to average 5 hours per response, including the time for reviewing instructions, gathering the data needed, and completing and submitting the information collection. Send comments regarding this burden estimate or any other aspect of these information collections, including suggestions for reducing the burden, to the FOIA, Privacy, and Information Collections Branch (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by email to [INFOCOLLECTS.RESOURCE@NRC.GOV](mailto:INFOCOLLECTS.RESOURCE@NRC.GOV); and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-XXXX) Office of Management and Budget, Washington, DC 20503.

### Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid OMB control number. The OMB control number for this information collection is 3150-XXXX.

1. Plant Name:
  
2. For all planned licensing actions expected to be submitted in the next three years, please provide the following information:
  - a. Licensing Action Description (similar in length to an expected title or subject line of submittal cover letter)
  - b. Projected Submittal Date
  - c. Action Type (such as Amendment, Relief Request, etc.)
  - d. If a multi-unit site, specify the unit(s) to which the action applies
  - e. Whether the action is needed for an outage and, if so, the dated needed by
  - f. Comments (as needed)
  
3. Do you plan to apply for a power uprate in the next 5 years? Yes / No  
 (If answer to number 3 is no, skip 4, 5, 6 and 7, and answer number 8.)
  
4. What percent increase in power from the current licensed thermal power (CLTP) limit do you plan to apply for? (Write n/a in any unit that does not apply to you or that is not having any power uprate)  
 Unit 1 \_\_\_\_\_ %      Unit 2 \_\_\_\_\_ %      Unit 3 \_\_\_\_\_ %      Unit 4 \_\_\_\_\_ %
  
5. What is the planned increase from the CLPT limit in megawatts thermal?

Unit 1 \_\_\_\_\_ MWt    Unit 2 \_\_\_\_\_ MWt    Unit 3 \_\_\_\_\_ MWt    Unit 4 \_\_\_\_\_ MWt

6. What is the expected schedule for filing the application (month/year)?

(If the month is not known, provide the quarter and/or year.)

Unit 1 \_\_\_\_\_                      Unit 2 \_\_\_\_\_                      Unit 3 \_\_\_\_\_                      Unit 4 \_\_\_\_\_

7. What is the expected date for power ascension with uprated conditions (month/year)?

Unit 1 \_\_\_\_\_                      Unit 2 \_\_\_\_\_                      Unit 3 \_\_\_\_\_                      Unit 4 \_\_\_\_\_

8. Can the NRC staff make the above information public? Yes / No\*

\*If you select "no" above, the information you provide will be initially withheld from public disclosure. In addition, pursuant to 10 CFR 2.390(b)(1)(ii), the NRC is waiving the affidavit requirements on its own initiative, as the NRC has determined that it is appropriate to do so in this case since responses to the survey that contain business-sensitive information, the disclosure of which is likely to cause competitive harm, are considered by the NRC to constitute proprietary information. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure. For example, you may be requested to submit an affidavit at that time.
