

Survey of Support Services to the U.S. Census Bureau's Automated Export System (AES)

The Automated Export System (AES) is the electronic filing system which the U.S. Census Bureau and U.S. Customs and Border Protection have established to process Electronic Export Information (EEI). Because you have chosen to transmit using one of the electronic variations (AESDirect, AESPcLink, self program/vendor, Weblink or EDI) to file your EEI, feedback about your satisfaction with the Foreign Trade Division's support services would be greatly appreciated.

We ask that you take 7 minutes to complete this survey. Your answers only will be used to help us make informed decisions about improvements to this service.

Your responses will be kept confidential. All answers will be pooled into aggregate measures for all reporting purposes, and no individual person or organization will be identified. Public reporting burden for this collection of information is estimated to average 7 minutes per response, including the times for reviewing instructions, searching existing data sources, gathering and maintain the data needed, and completing and reviewing the collection of information. Respondents are not required to respond to any information collection unless it displays a valid approval number from the Office of Management and Budget.

Send comments regarding this burden estimate or any other aspect of this collections of information, including suggestions for reducing this burden, to: Paperwork Project 0607-0760, U.S. Census Bureau, 4600 Silver Hill Road, Room 3K138, Washington, DC 20233. You may e-mail comment to: Paperwork@census.gov <<mailto:Paperwork@census.gov>>, use "Paperwork Project 0607-0760" as the subject.
