Dear SDC-CIC Alteryx assessment participants,

Thank you for your interest in joining the Alteryx Pilot Assessment. Upon our receipt of OMB approval for the online survey, we will send you individual access credentials, i.e., access URL, user name and password to the Census Alteryx proof of concept site as well as the online survey URL. As you all know, the objective is to validate the features and functionalities of this application in support of the Census Bureau's continuing market research into data tools and applications to support its goals of data dissemination and visualization.

The online survey has only twelve (12) specific use cases to test the features & functionalities of the application and also the ability to provide your all-important feedback and comments. At the end of the use cases, a final question will be asked on your overall impression of the application and as always your feedback and comments.

The assessment and survey is for a period of two (2) weeks and will inform you accordingly when that starts. We look forward to your usual active participation, engagement and collaboration in this assessment of this online data tool application.

Many thanks

Sam Aherrera
