To: Members of the American Community Survey Data Users Group Online Community

The Population Reference Bureau (PRB) and Sabre Systems created a brief survey to collect input from ACS Data Users Group members regarding key ACS issues and data user needs. Results from this survey will be presented in a Plenary Session on May 13 at the upcoming 2015 ACS Data Users Conference. This survey provides a unique opportunity for Data Users Group members to share collective feedback about ACS data issues and user needs with Census Bureau staff and other conference attendees.

The link to the survey is: https://www.surveymonkey.com/s/ACSonlinemembersurvey2015. The survey takes about 15 minutes to complete. Individual responses are anonymous; only the aggregate data will be reported and no individual person will be identified. Please respond by **April 20, 2015**. Your responses are voluntary. This survey is being administered by the Population Reference Bureau through SurveyMonkey and resides in a server outside of the Census domain. The Census Bureau cannot guarantee the protection of survey responses and advises against the inclusion of sensitive personal information in any response.

If you have any questions about the survey, please contact Mark Mather, Associate Vice President of U.S. Programs at PRB at mmather@prb.org or 202-939-5433.

Thank you for your time!
