Principal Investigator:	Ryne Paulose, Ph.D., M.A.	rnp0	301-458-4484	DHNS / OD

NCHS' Role in the Project

☒ Yes ☐ No NCHS Employees or agents will obtain data by intervening or interacting with participants.

☐ Yes ☒ No NCHS Employees or agents will obtain or use identifiable (including coded) private data or biological specimens.

Protocol Description (Please attach copies of any relevant protocol materials.)

The proposed NCHS Data Detectives Camp is a summer STEM (science, technology, engineering and math) camp focusing on statistics for rising 6th, 7th, and 8th grade students. This one-week commuter day camp will be an opportunity for boys and girls to learn about statistics through a variety of fun, hands-on activities.

Based on similar educational camps offered to middle school-aged children in the Maryland/DC area, approximately 150 parents, children, and teachers are expected to participate in the NCHS Data Detectives Camp application process, inclusive of the Application Forms (Student and Parent) and the Teacher Recommendation Form. Based on maximum attendance, 30 applicants will be accepted for participation in the Camp. The parents of the 30 accepted applicants will be further invited to complete the Registration Form and Evaluation Form. The 30 students and 20 camp counselors / instructors will also be invited to complete an Evaluation Form. No sampling methodology will be used to select the 30 accepted applicants.

Assessment of Requirements for IRB Review

Please provide details as to how the protocol relates to Title 45 Code of Federal Regulations (CFR), Part 46 requirements for IRB review. (Go to <http://www.hhs.gov/ohrp/humansubjects/guidance/45cfr46.html> to access 45 CFR part 46.) Is the activity a systematic investigation designed to develop or contribute to generalizable knowledge [45 CFR 46.102(d)]? Does the research involve a living individual about whom the investigator conducting the research obtains either (1) data through intervention or interaction with the individual, or (2) identifiable private information [45 CFR 46.102(f)]?

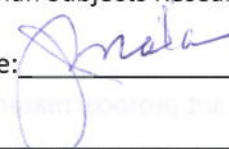

The proposed activity does not constitute a systematic investigation designed to develop or contribute to generalizable knowledge [45 CFR 46.102(d)]. The information collected from the Application and Recommendation Forms will be used

to identify the Camp attendees. The information from the Registration Form will be used to more clearly define and better serve the needs of the Camp attendees. The information from the Evaluation Forms will guide NCHS management in future program planning and implementation.
