**SI's Name Propagates Here**

SSR Date of Death:

SI's Date of Death:

Is this an Automated Death Case?

QR 07020.500 A. " Note: The automated Death Process changes the TMR of a record but not the HUN. Therefore cases may be selected for review where the HUN individual is not recently deceased and the death was already established in the past. For these situations, treat the surviving spouse as the SI and follow regular review and development procedures. "

Troughout this form you'll see the ES SSR data as if the ES was the only SI. The only reference to the original SI will be in APP file name.

Did the SI die prior to the SM?

Were all payments in the sample period returned timely?

Go to Element 24 and exclude the case using Code 01
