## Form 7000-2 — Quarterly Mine Employment and Coal Production

A **Quarterly Mine Employment and Coal Production Form (7000-2)** must be completed for those incidents defined as “accidents, occupational injuries,” or “occupational illnesses.”

### **Regulations**

**Section 50.30-1 of Part 50, Title 30, Code of Federal Regulations (CFR)**, requires preparing and filing a report with MSHA for each operator of a mine in which an individual worked during any day of a calendar quarter. You must complete and mail, fax, or file a **Form 7000-2** **within 15 days after the end of each calendar quarter**.

To minimize the burden of quarterly employment reporting for contractors, each contractor only needs to complete one Form 7000-2 for all work done on coal properties, and one Form 7000-2 for all work done on metal/non-metal properties. Each operator of a coal-producing mine and each coal-producing independent contractor shall also report coal production on Form 7000-2

### **Penalties for Failure to Report**

This report is required by law (**30 USC §813; 30 CFR Part 50**). Failure to report can result in civil action for relief under **30 United States Codes (USC) 9818** respecting an operator of a coal or other mine, and assessment of a civil penalty against an operator of a coal or other mine under **30 USC 9820(a)**.

An individual subject to the **Federal Mine Safety and Health Act of 1977 (30 USC 9801 at seq.)**, who knowingly makes a false statement in any report can be punished by a *fine* of not more than \$10,000 or by *imprisonment* for not more than five years, *or both* under **30 USC §820(f)**.

Any individual who knowingly and willfully makes a false, fictitious, or fraudulent statement, conceals a material fact, or makes a false, fictitious, or fraudulent entry with respect to any matter within the jurisdiction of any agency of the US can be punished by a *fine* of not more than \$10,000, or *imprisoned* for not more than five years, *or both* under **18 USC 91001**.

### **Log on to EGOV**

**30 CFR Part 50.30-1** requires a complete **Mine Quarterly Employment and Coal Production Form (7000-2)** for each operator of a mine in which an individual worked during any day of a calendar quarter.

## Filing Quarterly Mine Employment and Coal Production Report online

### **Log In**

1. Contractor / Operator selects **Quarterly Mine Employment and Coal Production Report (7000-2)** from list of online forms, and the following Login screen opens.
