

would not have an unmitigable adverse effect on the availability of marine mammal species or stocks for subsistence use. There are no relevant subsistence uses of marine mammals in the study area (on the Mid-Atlantic Ridge in the north Atlantic Ocean in international waters) that implicate section 101(a)(5)(D) of the Marine Mammal Protection Act.

Endangered Species Act

Of the species of marine mammals that may occur in the proposed survey area, several are listed as endangered under the Endangered Species Act, including the blue, fin, humpback, north Atlantic right, sei, and sperm whales. The Observatory did not request take of endangered north Atlantic right whales because of the low likelihood of encountering these species during the cruise.

Under section 7 of the Act, the Foundation has initiated formal consultation with the Service's, Office of Protected Resources, Endangered Species Act Interagency Cooperation Division, on this proposed seismic survey. We (i.e., National Marine Fisheries Service, Office of Protected Resources, Permits and Conservation Division), have also consulted under section 7 of the Act with the Endangered Species Act Interagency Cooperation Division to obtain a Biological Opinion (Opinion) evaluating the effects of issuing an incidental harassment authorization for threatened and endangered marine mammals and, if appropriate, authorizing incidental take. These two consultations were consolidated and addressed in a single Biological Opinion addressing the direct and indirect effects of these interdependent actions.

In April 2013, the Endangered Species Act Interagency Cooperation Division issued an Opinion to us and the Foundation which concluded that the issuance of the Authorization and the conduct of the seismic survey were not likely to jeopardize the continued existence of blue, fin, humpback, sei, and sperm whales. The Opinion also concluded that the issuance of the Authorization and the conduct of the seismic survey would not affect designated critical habitat for these species.

The Foundation and the Observatory must comply with the Relevant Terms and Conditions of the Incidental Take Statement corresponding to the Opinion issued to us, the Foundation, and the Observatory. The Observatory must also comply with the Authorization's mitigation and monitoring requirements-incorporated as Terms and

Conditions in the Incidental Take Statement in order for take of listed species otherwise prohibited under Section 9 of the Act to be exempt.

National Environmental Policy Act (NEPA)

To meet our NEPA requirements for the issuance of an Authorization to the Observatory, we prepared an Environmental Assessment (EA) titled "Issuance of an Incidental Harassment Authorization to the Lamont-Doherty Earth Observatory to Take Marine Mammals by Harassment Incidental to a Marine Geophysical on the Mid-Atlantic Ridge in the north Atlantic Ocean, from April 2013 through June 2013." This EA incorporated relevant portions of the Foundation's 2013 Environmental Analysis Pursuant To Executive Order 12114 (NSF, 2010) titled, "Marine geophysical survey by the R/V *Marcus G. Langseth* on the mid-Atlantic Ridge, April–May 2013," and the Foundation's 2011 "Programmatic Environmental Impact Statement/Overseas Environmental Impact Statement for Marine Seismic Research Funded by the National Science Foundation or Conducted by the U.S. Geological Survey," by reference pursuant to 40 CFR 1502.21 and NOAA Administrative Order (NAO) 216–6 § 5.09(d).

We provided relevant environmental information to the public through notice of the proposed Authorization (78 FR 10137, February 13, 2013) and considered public comments received in response prior to finalizing our EA and deciding whether or not to issue a Finding of No Significant Impact (FONSI).

We conclude that issuance of an Incidental Harassment Authorization would not significantly affect the quality of the human environment and have issued a FONSI. Because of this finding, it is not necessary to prepare an environmental impact statement for the issuance of an Authorization to the Observatory for this activity. Our EA and FONSI for this activity are available upon request (see **ADDRESSES**).

Authorization

We have issued an Incidental Harassment Authorization to the Observatory for the take of marine mammals incidental to conducting a marine seismic survey in the Atlantic Ocean, April to June, 2013, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Title of Collection: FFEL/Direct Loan/Perkins Military Service Deferment/Post-Active Duty Student Deferment Request & SCRA Request.

OMB Control Number: 1845-0080.

Type of Review: a revision of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 20,708.

Total Estimated Number of Annual Burden Hours: 9,177.

Abstract: The Military Service/Post-Active Duty Student Deferment request form serves as the means by which a FFEL, Perkins, or Direct Loan borrower requests a military service deferment and/or post-active duty student deferment and provides his or her loan holder with the information needed to determine whether the borrower meets the applicable deferment eligibility requirements. The form also serves as the means by which the U.S. Department of Education identifies Direct Loan borrowers who qualify for the Direct Loan Program's no accrual of interest benefit for active duty service members.

The SCRA Request form services as one of the means by which a FFEL or Direct Loan borrower requests that his or her loan holder limit the interest rate on his or her FFEL or Direct Loan Program loans to 6% during the period of the borrower's eligible military service. This is an optional form. Borrowers would continue to be able to simply request the limitation in writing.
