

Applications for Land-Use-Exemption Permits

Justification for Change in Non-hourly Cost.

In its previous submission and supporting statement, the Board included the average fees (\$14,250) associated with filing an application for land-use-exemption permits. Because those fees are not ordinarily included in the non-hourly burden of respondent, the Board has removed those fees for this extension. The result is what appears to be a decrease in the estimated non-hourly burden, but there has been no change.
