eAuthentication

USDA eAuthentication is the system used by USDA agencies to enable customers to obtain accounts that will allow them to access USDA Web applications and services via the Internet. This includes things such as submitting forms electronically, completing surveys online, and checking the status of your USDA accounts.

Please note that USDA will only accept eAuthentication Accounts from individuals.

Currently USDA eAuthentication does not have the mechanism to issue accounts to businesses, corporations or other entities.

To apply for a USDA eAuthentication Account, please visit the [Create An Account Page](#).

How to Initiate a Proposal

The screenshot shows a web browser window with the URL <http://162.79.22.221/fais/ust/webapp/Proposal/Proposal/CreateProposalSolicitation>. The page is titled "Create Proposal" and is part of the "Food Aid Information System" by the "United States Department of Agriculture".

At the top, there is a navigation bar with links for Home, Proposal, Agreement, Compliance, Administration, and About FAS. A user is logged in as **fais_admin**.

The main content area is titled "Create Proposal" and includes a section for "INSTRUCTIONS" and "Search and Select Solicitation". The search form has the following fields:

- Fiscal Year: 2014
- Program Type: Food For Progress
- Solicitation: Food for Progress FY 2014 Proposal Solicitation

Below the search form, there are two buttons: "View Solicitation" and "Create Online Proposal".

The central part of the page features a "Front Page" header and the following text:

**U.S. Department of Agriculture
Foreign Agricultural Service
Office of Capacity Building and Development
Food Assistance Division
Food for Progress**

**Opportunity Announcement
CFDA Number: 10.606
Issue Date: May 6, 2013
Application Due Date: August 2, 2013 at 5:00 PM Eastern Daylight Time**

Below this, there is a section titled "SECTION I: FUNDING OPPORTUNITY DESCRIPTION" with three sub-sections:

- A. AUTHORITY:** The Food for Progress (FFP) program is authorized by the Food for Progress Act of 1985, as amended.
- B. PURPOSE:** The Food for Progress program provides for the donation of U.S. agricultural commodities to developing countries and emerging democracies that are committed to introducing or expanding free enterprise in their agricultural economies. Donated commodities are typically "monetized" (or sold on the local market), and the proceeds are used to fund agricultural development activities.
- C. PROGRAM OBJECTIVES:** For this announcement, the Foreign Agricultural Service (FAS) is concentrating FFP resources toward developing the agricultural value chain. To support the achievement of this goal, FAS has identified two high-level strategic objectives: (1) increase agricultural productivity and (2) expand trade of agricultural products (domestically, regionally, and internationally). Applications that do not contribute to at least one of these two high-level objectives will not be funded. Proposals should address both high-level objectives, if necessary. FFP's high-level objectives are supported by two results frameworks that
