### Part One: Eligibility

**Instructions to WIC clinic staffperson:** After certifying a pregnant woman for WIC benefits, use the following Eligibility Screener to determine whether or not to discuss the WIC Peer Counseling Study with her. The information below was probably collected as part of WIC certification. Complete as much information as possible from WIC participant's records. For any missing information, ask the question written in italics.

*I'd like to ask you a few questions to see if you are eligible to participate in a study we're doing about the choices women make about feeding their newborns. If you are eligible, I will tell you all about the study and you can decide whether or not to participate. You don't have to answer any of these questions if you don't want to.*

### INELIGIBLE

- A1. This study is only for women who will be first-time mothers. Since you've had a baby before, this study is not appropriate for you.
- A2. This study is only for women who are less than 33 weeks pregnant (that is, who are no more than 8 months pregnant).
- A3. This study is only for women who are at least 18 years of age.
- A4. For this study, women must be willing to provide certain information about themselves and their pregnancy. Women who do not wish to give this information may not participate in the study, but will still receive all agency benefits for which they certify.

### ELIGIBLE LATER

- B1. This individual might be eligible for the study in a few months. Give her a study brochure. Say: *We're participating in a study about how our breastfeeding peer counseling program affects the choices women make about feeding their infants. You might be eligible for the study in a few months. In the meantime, this brochure tells you about it. We can talk about the study more when you come back for your next visit. You do not have to participate in the study. If you decide not to, you will still receive all of the benefits that you certify for.*

### ELIGIBLE NOW: INVITE TO PARTICIPATE by reading the Invitation Script

#### INVITATION SCRIPT:

Say: *We're participating in a study about how our breastfeeding peer counseling program affects the choices women make about feeding their infants. The purpose of the study is to find out what kind of peer counseling is better for helping women breastfeed their babies. You don't have to participate in the study if you don't want to. If you decide not to participate in this study, you can still talk to one of our breastfeeding peer counselors, and you'll still receive everything we've already discussed including food vouchers for you and your baby, nutritional classes/counseling, and all of the other services for which you are eligible. Women who participate in the study will be asked to complete two surveys by telephone. If you complete the first phone survey before you give birth you will receive \$20. If you complete the second survey, after you give birth, you will receive another \$20. Also, if you call a toll-free number within 2 weeks after your baby's birth, you will receive a \$5 gift card to [NATIONAL RETAIL STORE]. Let me go over this consent document with you before you decide.*

- Use the **Invitation Tracking Log** to log the invitation and the WIC Participant's decision.
- If the WIC participant signs the **Consent Form**, complete Part Two: Enrollment Information on the next page.
- If the WIC participant decides not to take part in the study, ask her to complete a **Decline Form**.
